• VA class submarine

What is it like having the critical job of working on a nuclear submarine's reactor?

“Running a submarine reactor plant is kind of like I said earlier about being on a boomer. If it’s not boring, something bad must be happening.

On mission we’re going slow and running our equipment as quietly as possible. The capability of these plants is so impressive. You can go from putting around at a few knots to 100% in about a

minute. There's so much shaft torque it keels the boat over to the side a little bit. And the operators catch it and stop the power transient at 100% on the nose.

A commercial plant could take a full day to do the same percent change. Given commercial plants are an order of magnitude larger in power output, but something similar of a commercial variety would break fuel doing what we do if it attempted it even once. **The Navy's plants can do it thousands of times. (Zero point plasma accelerator)**

The designers do an amazing job making these plants durable, reliable, and easy to operate for the sailors. Very little of our design is automated. The sailors control everything. Every valve, every power change, every pump is specifically controlled.

How China uses facial recognition to control human behavior

When facial recognition is everywhere, anything you do is fair game for public shaming and punishment.

• China facial recognition is a Draco punishment system by shaming. They use stocks and glass booths on other planets to control populations.

"China uses facial recognition to profile Uyghur individuals, classify them on the basis of their ethnicity, and single them out for tracking, mistreatment, and detention," a bipartisan group of 17 senators said in a letter to Secretary of State Mike Pompeo on March 11. "And these technologies are deployed in service of a dystopian vision for technology governance, that harnesses the economic benefits of the internet in the absence of political freedom

and sees technology companies as instruments of state power."

Behavioral engineering

The idea that China's facial recognition would automatically put your name and photo on a billboard for jaywalking and privately text you a fine instills fear in people to behave a certain way, Wang said.

Technology has often had that ability to affect behavior, even outside of China.

Behavioral engineering is the concept of combining technology and psychology to nudge people to act a certain way, and it's something we see every day. It's evident in "dark patterns," interface designs like hidden opt-out buttons that trick people into giving up their personal data, for example.

In the US, behavioral engineering can be done through amassing data on people, and pushing or excluding content to them based on predicted personality traits.

Facebook's 2018 scandal with Cambridge Analytica stemmed from the fact that the now-defunct UK data analytics firm used data from millions of people to target advertising that would sway people to vote a certain way.

Soren: We are in China. We're in the bases underneath, we've got the Resistance, some Alliance military and militia from other friendly countries.

The deep state will not win. They can fight all they want. As for China, we're attacking them from underneath. They are putting up a fight but when we come out, they don't really expect us. So we have at least a moment's advantage. We take captive as many as possible, but some are killed. We try to smokescreen them and let off gas bombs, things like that, your militaries have them, but we Pleiadians like to put them in suspended animation and just take them and put them on a ship.

What about Switzerland? I hear a lot of this has to do with Klaus Schwab and Davos, Switzerland. He seems to be king pin of sorts.

Soren: We're still after him. They hide in the Alps and we can't always get at them because their barricades are so extensive. But we're still there as well. The other thing is they use clones a lot and the real ones, whoever is still alive, go into hiding. There are mountains in Russia as well where they hide. They're fortified there as well.

Me: What about their going off planet?

Soren: Not as likely because we have the planet surrounded. All ships coming and going are checked, even boarded. Anyone carrying wanted members of the Illuminati or the Draco commander group are arrested.

Me: Could you do the same thing in Switzerland? Go through the bases?

Soren: There aren't so many in Switzerland, but yes. We've been doing that.

Me: So how does your being in China affect the U.S. and the impending war there between the dark and the Light?

Soren: We're weakening the Chinese army. You know from your warfare that eventually recruits are not as well trained when you have overtaken the bulk of the army. They get less training and are frankly, less likely to want to fight you because they are usually conscripts.

Me: So that still applies. I thought that went out with the Vietnam War. Conscript and such.

Soren: They still fight with guns. Some military operations have more advanced weaponry, but many just use guns.

Me: We've got to stop this nonsense. Nobody on this planet deserves war!

Soren: No, it's unfortunate that that's the nature of the beings who run this world. They'll have to be overtaken by force; it's the only way.

Me: Why do you say that?

Soren: Obviously because they don't care about the law. They don't care about the American Constitution and they're not playing by the rules anymore. They created the rules that you lived by in order to ultimately break them. They know what's going on on earth now, they know they're done for unless they do something desperate and they're doing it now. They're fighting to keep people brainwashed and under their black magic.

They're fighting to have you kill each other off. They know this will lower your frequency. The collective will incur a lot of negativity again. Just like world war 1 and 2 created so much for the 20th century. They knew what was coming; they knew we were here. They knew we were getting allies together to work to overthrow them. It was a matter of when. As it turns out, it took this long because they were onto our other efforts and managed to stop us.

Me: Yes.

Soren: A war will work wonders for their frequency. It will create enough loosh for them to live on, eve with earth going into the fifth dimension. They have artificial timelines that don't respond to universal law. When earth goes 5D, the artificial timelines will still remain because they're managing to fortify them now with this war. There's a lot of negative energy to clear up.

Me: Yes. People need to keep transmuting. I know I do this at night time and wake up feeling rough. We're eliminating a lot of the negative energy that will keep the 3D timelines alive.

Soren: You've noticed that people are dying. The one man you know has been a portal for dark energies, and now he'll go and no longer will he contribute to dark energy on earth. These people will start to go in numbers. It has to be.

Me: So how does the average person deal with this?

Soren: Yes, hold your light. Stay positive. You're switching timelines all the time and you want to be on the highest one possible anytime something happens, otherwise you suffer consequences you wouldn't otherwise have. Stay positive.

Me: So there's a lot of connection between China, the U.S. and Switzerland right now?

Soren: Yes, Switzerland tends to be where the Deep State is headquartered, it's the site of all the globalist meetings and so forth. Good place for us to set out our spies, as a matter of fact.

Me: Yes, maybe you can disguise a seven foot tall Pleiadian in Switzerland. LOL

Soren: They're not all that tall. But yeah, we are Nordics, a lot of us. Some are darker. You know because you've spoken to Pleiadians of all different appearance.

Me: Yeah. How about that German doctor, Heiko Schoening?

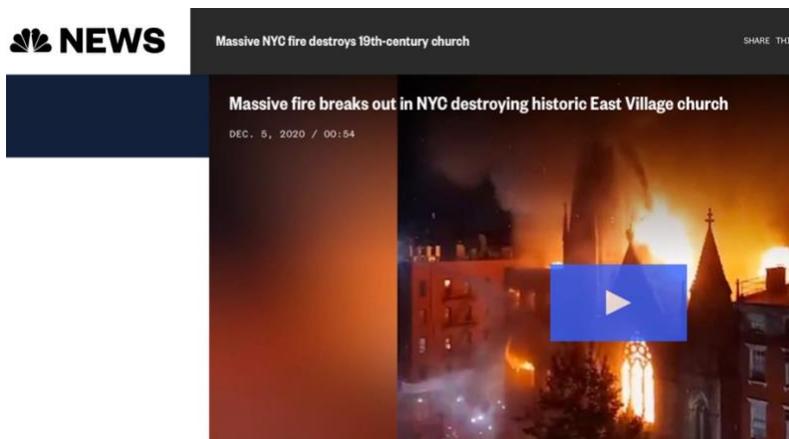

Soren: No comment. LOL

Me: I can tell he's not from earth.

Soren: There are a lot of ETs in your political systems, doctors, you name it. They'll become more and more prominent now. It's time for them to come out and lead the way for the rest of you.

When you move up to fifth dimensional frequency, you will become unconditionally loving as a matter of daily interaction. You will be responsible for dealing with those of like frequency in their way, dealing with fourth dimensionals in their way, and for asserting yourself with third dimensionals as required or choosing not to engage with them at all.

Me: Is this normal?

Ivo: No. Most worlds are split out into the varying frequency levels and ascension is only possible through death. Your world is a different story. People are moving through the various dimensions while still alive and still interacting with the other dimensions. Your lives right now require flexibility because the timelines are still intermixed. Normally they are not.

Reich - New World Order

- 3rd Reich - Representing the Nazi's (Nationalsozialistische Deutsche Arbeiterpartei /National Socialist German Workers' Party), Schutzstaffel (SS), and Hitler. Their adopted racist policies were encouraged by Nordic and Draco ET contacts. Resented the Cabal due to the bankers buying up land in the Hyperinflation era of the Weimar Republic and forcing German farmers off their land to starve the nation.
- 4th Reich - 3rd Reich Nazis embedded into Cabal governments and corporations under guise of Project Paperclip. Most members originated from Base 211 in Antarctica.
- 5th Reich - 3rd Reich Nazis who settled Antarctic and later space colonies throughout time. They don't consider themselves Nazi's but compare themselves more to the Teutonic Knight order which was used to aid Christians during the crusades. They prefer to be known as Germans and have their own breakaway civilization.

Lunar Operations Command

- 1947 is when the German's began building out their 20-acre Moon base in Draco territory known as Lunar Operations Command.
- As per the lease agreement the German's agreed to give the Draco 225 females and a 25-year refusal rights for new technology, limiting what technologies the Germans were allowed to have access too.
- When the Draco came to collect on their deal, they would freeze these women and later bring them out of stasis to mutilate, traumatize, or kill them.
- The ones who survived would have had their memories erased due to memory alternation technology.
- This began a very dark slippery slope of trading humans on planet Earth for technology; a problem which would only grow bigger over time.

zoom

Off World Bases

- By 1952, the Germans had lost 1,000 people building out their Moon base due to the harsh environment and the difficult conditions the Draco were placing them in.
- In the early 1950's the Germans were also busy building out their New Berlin bases on Mars and on the asteroid of Ceres as well as Titan.

Cabal-Nazi Treaty

- 1955-1959 the Cabal and the Germans treaty negotiations take place at a base given to the Cabal in Antarctica under Operation Deep Freeze 1 and 2.
- There were two parts of the treaty; one was a public version and the other was a classified version. The public version agreed that Antarctica would be off limits to the rest of the world except the Cabal and the Nazis.
- The classified version granted the Germans 150,000 personnel of their own choosing from all over the world and 55,000 people each year thereafter for 5-year tours of duties.
- The Germans would be responsible for abducting the people, housing them, feeding them, clothing them, paying them, and then they would be given an option to become German citizens at the end of five years.
- If they did not want to become German then they would wipe their memories, reage them, and time traveled back to when they were taken as if nothing had happened.
- But from the start things did not turn out as planned. Most of these people were enslaved, denied payment, and instead of tours of duties of 5 years some were forced into 20-years or even multiple sets of 20 years, or they were never returned at all.

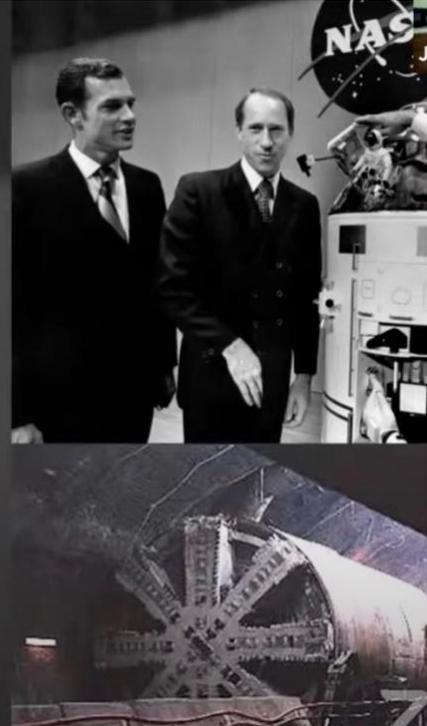

Cabal-Nazi Treaty

- The Germans demanded at least one Antarctic German on the governing board of all the world's largest corporations.
- Larger companies may have had up to 5 to 10 Germans on their boards.
- Additionally, one German must be on the executive branch of every government. This meant the United States had multiple operatives.
- Their identity would also remain classified so the world would not gang up on them. The Cabal didn't want people to know Nazis were still in charge because they would lose their treaty which would result in more conflicts.
- In return the Germans would grant the Cabal access to their theories of advanced technology but not the full concepts. The Cabal was satisfied with these terms.
- In the 1960's the Cabal would continue to remain hostile towards the Germans. Cabal MIEC corporations like Rand Corporation, TRW, Philco, Lockheed, General Dynamics, Northrop Grumman Space Technology, NASA JPL, Boeing would develop very advanced technology but the Germans on the board of these companies would block the technology and transfer it to the Germans instead. This is why so many new advanced technologies appear in publications like Popular Science and then you never hear about them again.

NASA

- Because the Cabal was not given full access to Nazi technology in 1958 they created NASA to siphon money into Cabal black projects to compete with the German's.
- The money siphoned would help fund the D.U.M.B.S. Deep Underground Military Bases and the American Secret Space program which was in joint venture with the Soviets. This would later become Solar Warden and Radiant Guardian.

SSP Expansion

- In the 60's the Antarctic Germans built a second base in Antarctica.
- Task groups were created to expand out into the solar system, such as a base on Ceres, Moons around Saturn, Kuiper Belt, and Oort Cloud; and they would even time travel back in time 400 years to settle planets all around the milky way galaxy.
- Over 3 billion people now live off world under various German SSP groups; protected by the Nacht Waffen which translates into Dark Fleet.

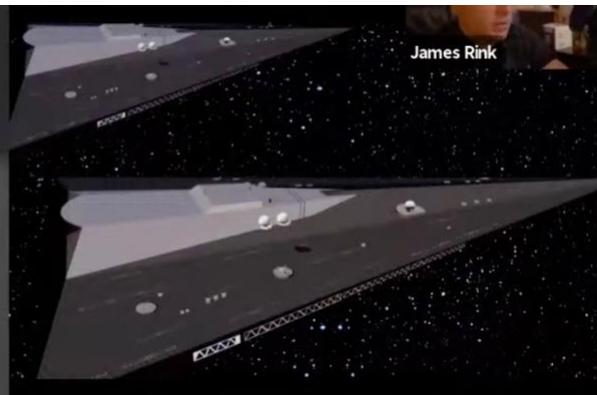

Drawing courtesy of Tony Rodrigues

Yozora No Kyushu

- The Japanese SSP component of the Axis Powers was also granted access to these programs and refer to themselves as, Yozora No Kyushu, which translates into Dark Night.
- The technology of these groups is more advanced than Star Trek, but the architectural designs still maintain a 1940's type look to them.

Nacht Waffen- Dark Fleet

- Nazi Breakaway Civilization - Nacht Waffen - Dark Fleet's starships are massive and can be up to 20 miles long.
- When they need to build a new battle cruiser for example, they simply place an order and a team time travels back 20 years into the past and completes it instantly from the perspective of the buyer.
- Nacht Waffen considers themselves more German than Nazi. Ranks include 5th Reich Germans consisting mostly of German aristocracy, Teutonic Knights, and the Thule Gesellschaft.
- Officer Class are infected with Black Goo

James Rink

Jump Gates

- In the 1960's the Germans obtained jump gate technologies allowing them to instantly teleport between worlds; but it was and still is, restricted in use for only the elite and German officer class.
- These gates are also found within Hilton Hotels often used by the elite to commit satanic rituals.
- As reported by Andrew Basiago, one jump gate is located under the building at 999 N Pacific Highway next to LAX, which travels to a facility in New Jersey as well as the Moon and Mars.
- It looks like a elevator, you walk in and the walls curve around you then 10 minutes later you are at your new destination.

Jump gate located under this building in El Segundo, Ca

SSP in the 1970's

- In 1972 the 25-year Draco first refusal rights had come to an end. This meant the Germans could now keep the technologies they acquired.
- By the 1970's the Germans got their populations up in outlying colonies to self-sustainable levels.
- They also began to master time travel technology. Time is circular not linear. If you change Point A, Point B will change into a timeline fold back resulting in Mandela effects. To create a minimum of timeline ripples they have to be very careful of going into the past and changing the outcomes of timelines as they would find something else would happen, and now, they would have multiple problems.

Interplanetary Corporate Conglomerate

James Rink

- Created around the mid-1970s the tasked with running Lunar Operations Command on the Moon and the Mars Colony Corporation colonies on Mars.
- I.C.C. policy would be dictated by group of seven mobster families known as the Triumvirate.

I.C.C. logo courtesy of El Ka. The stars represent navigation, the wings symbolize freedom of space flight. Thunderbolt is the power to succeed. The silver pyramid is for hidden knowledge and the crown represents their elite trained assets.

Joint Defense Command Force

Jam

- The I.C.C. also established the J.D.C.F or Joint Defense Command Force which oversees the military branch of the SSP which includes the Mars Defense Force, Earth Defense Force, and now the Space Force.
- J.D.C.F. headquarters is on the Moon but they have training facilities on both the Moon and at the Mars Colony Corporation headquarters at Aires Prime where they also subcontracted mercenary work to the Kruger military contractor.
- Americans could participate in these forces but the Germans maintained control over these programs.

Intergalactic Expansion

- Today the I.C.C has over 100 colonies, bases, and industrial facilities on the Moon, Main Asteroid Belt, Mars, and several other Moons and bodies in our solar system.
- They also have ongoing trade agreements with almost 900 civilizations and operational bases in almost all of the 53 local star clusters around us, but most are observational outposts.

Intergalactic Expansion

- There are 20 I.C.C. cloaked stations currently in our galaxy.
- The first three cloaked stations are orbiting around Earth and are research facilities learning how to create sustainable living environments in outer space for long term travel to far away galaxies.
- Three other stations do research on how to successfully create hydroponics and aquaponics gardens on space ships and stations, as well as studying how bacteria and viruses survive in different space environments.
- Six stations around Mars are building War Ships for interstellar defense of the Milky Way Galaxy.
- There are four stations around Jupiter, two near Saturn, three near Venus, one beside Pluto, and the last one near Uranus.
- There are also minor stations used for spying and recon on the activities other SSP factions within our galaxy.
- These stations have world engines made from plasma generators so they can travel out in space and they are not necessarily

zoom

Merchant Marine Fleet

- The I.C.C. oversees the Merchant Marine Fleet.
- Their job is to trade supplies between bases and to figure out what to do with them.
- They are also the number one transporter of slaves and the second biggest transporter of weaponry technology.
- So, for example these vessels would kidnap people on planet Earth that were about to die from a plane crash. No one would even know they were gone.
- These people would then be either converted into cyborgs for slave labor, converted into food for regressive species, or sold to alien groups for breeding experiments.
- Breeding pairs are considered more valuable cargo. In return the M.M.F. would obtain advanced weapons and technology for their colonies.

Human Trafficking in the SSP

- This is why the I.C.C. has continued hiding their presence from Planet Earth.
- No one wants to take responsibility for the actions that have resulted in human slavery and the I.C.C. continues to have a massive demand for new personnel in their off-world bases in their 20, 40, or 60 years and back programs.
- Over time, the annual abduction quota on planet Earth would steadily rise from 55,000 people in 1959 to over 1 million by the year 2020.
- The good news is in 2020, only a tiny .01% fraction are sold as slaves or food.

Solar Warden

- In 1980, the Cabal briefed the Regan administration about the I.C.C.
- During this time the Cabal were setting up their own secret space program under the cover name of S.D.I., Strategic Defense Initiative, also known as Star Wars.
- This SSP group would call themselves Solar Warden. Enlisted officers included participants from all nations that had a Cabal controlled central bank but upper management was drawn from Naval Space Command.

James Rink

Combined with testimony from MILAB whistleblower Corey Goode regarding the Solar Warden ships, we are able to piece together a possible look and feel of the ships they both discuss. Given that this program would have begun in the late 80's it's reasonable to assume it would look like something produced by a joint venture between all of the top aerospace manufacturers of the time, Lockheed, Northrop, Boeing and British Aerospace.

Radiant Guardian

- In the 1990's, Solar Warden's fleet was divided in half.
- Solar Warden would control the region from the Sun to the Mars ring asteroid belt and Radiant Guardian would be tasked with controlling the region from the Mars ring to the end of our solar system near the heliosphere or out toward the Oort cloud where they have bases.
- These guys will patrol these areas to make sure they've got supplies, make sure there's nothing going on or anyone coming in the system that should not be there.
- If we have a particular big orbital problem, say for example, comet or asteroid they may take care of that as well.

The Federation

- The Federation is also known as the Intergalactic League of Nations on Planet Earth and interface with the UN.
- They are a group of ETs that oversees and enforces the protection of underdeveloped species; which we were for a long time, and why the Draco were hiding their presence.
- This is all tied into ancient wars between the Draco and humanity which resulted in the destruction of Atlantis and Lemuria.
- Many of them don't want to get involved as they view the situation on Planet Earth to be so bad.
- They plan on announcing themselves to the public around 2022-2024. Though negotiations are in works to hold off till 2034.

NOTE: Every ET race has an agenda.
Discernment is our job.

Nazi-Cabal Joint Venture

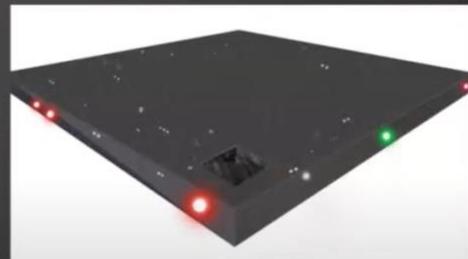

- Around 1990, the Antarctic Germans had moved the bulk of their operations to Mars.
- They also acquired new property on the Moon so they would not have to be as close to the Draco.
- Their treaty with the Draco stated that if they evacuated their base, they would need to find a new tenant. So, they gave this base to the Cabal.
- The Cabal paid for this Moon lease with 25,000 ground troops so that Germans could use them on Mars to expand their territories and for border control.
- Estimated total Cabal budget fed into the SSP is about \$100T annually.

James Rink

IDARF

- In 1991, the Cabal and the Mars Germans signed a cooperative action treaty allowing the Cabal to take over the 20-acre Moon Base in Draco territory.
- They also created I.D.A.R.F. which stands for the Interplanetary Defense and Reaction Forces. The I.D.A.R.F. regiment was told they would be helping to save the indigenous populations from alien aggressors. But in reality, both sides, the military and alien aggressors were being manipulated and controlled by the Draco.
- In the 2000's once the Cabal got their own SSP fleet under I.D.A.R.F. and with help from the Draco, they began taking over other worlds, many of them occupied with humans; and installing loyal Cabal families, central banks, and fiat monetary systems to control the masses.

Johan Fritz

Alliance

- In 2018, 20 percent of Nacht Waffen vessels broke away to form the Alliance.
- The Draco, infected with Black Goo had begun requiring executive level officers to also consume Black Goo.
- Black Goo is a sentient A.I. biobot goo that was discovered on a planet far outside our galaxy. Consuming it causes your I.Q. to shoot up astronomically but, in the process, you lose what makes you human. Your connection to god source becomes overwritten by A.I., members become locked into a hive mind matrix resulting in more cruel, negative, and unemotional behaviors.
- In addition to this problem, the officer class was also very upset with the human slavery issue.

Space Force

- By 2020, the I.C.C. controlling council had grown to about 12 members.
- One of which, is Space Force
- The General in charge of the council is a white hat who is seeking preparation for disclosure of the SSP to humanity.
- There is a battle between slow disclosure over a 50 year period or fast data dump to get the rest of humanity upgraded quickly.

Planetary Corporations

- Planetary Corporations work with the SSP to provide technology, assets, and personnel for ongoing operations.
- Most are not working for the benefit of humanity.
- Planetary egregory switched to 50% positive in April 26, 2020 which is causing some of the old negative timelines and the control of these groups to fade away from our reality.

Monarch

- Monarch - Responsible for everything bad on this planet. Implicated in human trafficking, sex and mind control experiments, as well as chemtrailing the public with chemicals and biobots made in laboratories on Mars.
- Negative breakaway group from Atlantis dating back 6,000 years ago
- Massive DUMB on the border of US and Canada near Toronto.
- Lead by Paul Serene whose clone is the actor Kevin Spacey

James Rink

Shaw House

- Shaw House is based in central London with many entrances located near the Tower Bridge.
- They own many normal looking homes in the area but they all connected to an underground DUMB which resides in a pocket reality outside of our reality.
- They work closely with Monarch and Mobius. Infiltrated and sabotaged the M.C.C. by kidnapping people, making them slaves and prostitutes, and conducting black magic rituals.
- Controls the British Royal Family
- The organization is led by Heather Shaw and her clone is the actress Vanessa Kirby.

zoom

Scorpion Corporation

- Scorpion Corporation represents a group of Illuminati aligned individuals; who love to create long term plans bringing about chaos and destruction.
- In the midst of the chaos they come in with their needle spike to bring about order.
- They are based in another pocket reality and worked closely with the Montauk Project in this reality along with Monarch, Mobius, and Umbrella.
- Their members are usually hybrids and crossbreeds.
- They are implicated in utilizing trauma-based mind control, time travel, and consciousness experiments which caused the deaths of over 100,000 children in time travel experiments in the Montauk Project.

zoom

Massive Dynamic

- Fictionalized in the Fringe TV show and cortexiphan experiments.
- Works closely with Monarch and Mobius, but smaller and based in UK.
- Due to ongoing operations cannot mention much more about them.
- Parkland Shooter Nikolas Cruz was being loaded up with cortexiphan , shapeshifted into a super soldier with a lion face with weapons which popped out of skin. MIB erased memories and wiped cameras of the event.

Dark Shield

- Dark Shield is an Antarctic Nordic base in a pocket reality outside of time.
- They got their portal tech from Monarch and Mobius. They also work with Umbrella Corporation.
- The facility was given to the Third Reich Nazis to experiment on clone cyborgs and augmentations in order to create an upgraded Lichsoldaten super soldier.
- The facility is now under control of Dark Fleet.

Cyberlife

James R

- Cyberlife featured video game “Detroit Become Human”
- Creating androids which look just like people except they don’t need food, make poo, and require temperature-controlled environments.
- They do have feelings and a soul but it’s not like a human soul.
- They have sent androids back in time to set up settlements in Mars in the 1450’s.
- They have also sent androids back in time to present day Planet Earth to a facility underneath Detroit which now represent 33% of the population.
- Cyberlife is run by the android Kara.

Neurocore

James

- Neurocore is a subdivision of Cyberlife.
- They also work closely in tandem with Monarch and Elon Musk to create the Neurolink technology allowing your brain to telepathically communicate with A.I.
- The neurofeedback device looks normal but it implants femtotech in the hosts body in the first exposure.
- It also enhances brainwaves so they are more easily entrained by Monarch.
- This might explain who Elon Musk works for.

DARPA

- D.A.R.P.A. is the Defense Advanced Research Projects Agency, founded in 1958.
- They are tasked as the R&D division of the Department of Defense. They seek to apply emerging technologies to help better equip the U.S. armed forces.
- DARPA is considered the bottom of the barrel of the planetary corporations because they would get the old outdated technology scraps from the other planetary corporations.
- Congress throws them about \$3.4 billion dollars each year but most of their money (\$20B+ off the books) is made through subcontracting to all the really bad planetary corporations like Monarch, Mobius, and Umbrella as well as Cabal groups some of which do not have humanities best interest in mind.

Kruger

- Originated in a parallel reality in which the Nazis won World War II.
- Kruger was founded by Gabriel Kruger as a Nazi military and weapons contractor.
- Works closely with Mars Defense Force on Mars and has a facility on the Moon.
- Considered to be more positive of the factions and upper management is ready to release military records to Kruger Vets when ET disclosure is publicly announced.

Black Ops

- Lincoln Clay is the director of all black ops on Planet Earth which also stretches off world at times.
- The name of his group is Earth Defense Force.
- Lincoln Clay is a huge African American guy about 6'10" but is probably one of the friendliest polite people you can meet.
- He is in charge of 100 million clone soldiers in stasis which would be brought out to fight the New World Order had that happened.
- Currently working to bring about positive change in this part of the galaxy and Planet Earth.

ACIO

- The Alien Contact Intelligence Organization, also known as Advanced Contact Intelligence Organization, A.C.I.O., operates as liaison between humans and ET's to promote cooperation and agreements between our species.
- Alphabets such as NSA, CIA, and NRO have almost no access and do not know what's going on, on this planet. However, the ACIO has records on everyone on the planet which go approximately back 40,000 years.
- They are based in Area 51 and Pine Gap, Australia. The organization is managed by the Republic of the A.C.I.O. located in another pocket alternate reality.
- Division Six is the Men in Black

- CFR and Club of Rome always have Committee of 300 people in place in congress and elsewhere, so it does not matter who is president. Until Trump that is. Everything is rigged.

Freedom

November 15, 2020

Elizabeth Clare : “In this age (of Aquarius) when we desire freedom, we have to learn the laws that govern freedom and the great disciplines of love that come to us as the Holy Spirit is released from within.”

Women are seen as the lesser sex, even by themselves. The fact that they are used to sell sex is also a large part of the way women are viewed and that sex is their only power. It also indicates that men still have greater earning power than women do because this advertising ploy is often carried out around big ticket items that men might be interested in. Even the fact that they would be interested in things such as powerful cars, high powered jobs and positions in the community, also speak to the fact that men are reared to be more powerful than women. The other thing that we believe is that powerful people are aggressive and put others in their place. This isn't power; it's fear based behaviour and the real ones of power are those who seek self discipline and self mastery. So those powerful men are suffering in silence.

Women have been prejudiced against because they are “more emotional” than men but men have simply been conditioned not to show emotion. They are as emotional as women are. You've been fooled. The strong silent type is a stereotype, and frankly, that's another thing we need to look at: stereotypes and archetypes in our world. When you're playing a role, you're not free. Athena: The expression of emotion is freedom; the suppression of emotion is incarceration.

How many of us are taught to suppress our emotions? If you had a crying fit at your job, what would people think? If you burst out in anger at a client, would you still be working for long? You squelch your emotions for 40 hours a week, at least. How many of you would throw a fit or act out of line in a public place? Not too many, eh? We live in accordance with what is appropriate, fearing to be different. We shun others who don't tow the line and fear what they might do. If you're living with someone who's not open to hearing everything you feel, you're suppressing yourself even more. We walk around, not knowing who we truly are, yet we are so

emotionally repressed how can we know who we are? Your emotions are there to tell you. That's their job. Yet we suppress them so that we can fit in to a world that can't afford to allow us our emotions. Think about that.

How many times have we shushed our babies, to try to get them to be quiet rather than allow them to express their feelings? That's how it starts. They learn there's something wrong with their feelings and start to fear them, perhaps even starting to distance themselves from them.

It's interesting that we work so hard to get along in society, but then our world leaders start wars at the drop of a hat. It's "Do as I say, not as I do."

How many of us work hard at keeping parts of ourselves a secret? We don't want the public to know because we're scared of not fitting in. Such as we starseeds and lightworkers, from other planets, some of whom have other bodies in stasis and have alien DNA in our earth body. That's not something you'd broadcast from the rooftops, is it?

When you believe the tenets of our society, you are in fact, continuing these ideas. These are lies. It's artificial programming that's done to keep you from the truth of the human existence.

Our entire existence here on earth is based on the premise that we are physical beings only. Of course, this isn't true. What's more, there are satanists in charge of this planet now who are particularly haters of and interested in oppressing the Divine Feminine in order to keep us off balance. They also oppress the Divine Masculine but they use men in other ways and that includes empowering them to serve the system, whereas generally women are seen as disempowered in the system. That's why you have this phenomenon of men having higher self esteem (ego esteem) than women. Women tend to put themselves down and attack themselves on a greater level than men do, and nice men can't understand why women go for toxic men instead of them.

At one time the woman's job was to keep house and bear children. These were not seen as important roles, so women wanted to go out and work. The rate of inflation also dictated it was necessary for women to work because people couldn't afford to live off one salary anymore. This situation was created in order to destabilize the family unit, a precursor to the eventuality of the government having more control over your children than you do. Yes, they want your children and that day is on the horizon. It has to be stopped. They already have some of that control because so many parents defer to the government and health care system without questioning it.

The only way they can stay in power is by keeping us off balance.

However, all of this is going to change.

Our society is built on the idea that you have to control other people in order to get ahead, that if you're a supervisor with subordinates, that you are powerful. Most people seek their power in employment but this isn't power when you're working for someone else who has far more money and the power to dictate laws that govern you. You're being played. You're working for them and they're using your efforts to further enslave you.

We have false models of power and false models of gender identity programmed right into us.

It's all got to change.

So many currently believe that to be free means that they are going to work. Does that really feel like freedom to you? Having to earn your way through life? Having to pay to eat when God supplies it to us for free?

I believe in this Age of Aquarius, humanity on earth will find out what freedom really is, instead of paying lip service to it like we are now. We will redefine our genders based on a multi-dimensional concept of what a human really is. The fact is, the words we have used to define ourselves can tell us what the truth is: human. Hue-man. A person with colours. Yes, the 12 dimensional aura. That is the hue in human. The word “man” really encompasses both males and females. Why? Because words lie to us and tell us that a woman should be seen as a man of woe. Words reveal hidden truths and they can also lie.

You are using language to communicate with others. You are telling others who you are and what you believe using language. When in fact, this language is adulterated, it defiles the human, and lies to us. Our languages keep us trapped and they continue to enslave us to concepts that are not in our best interest. Do you think it's any surprise that the common person's use of language has degraded within the last few centuries? I don't. They don't want language to evolve; they're trying to devolve it and decrease our capability to use it. If you don't believe me, read something from 1800 and read the expression of emotion that writers put into their writing and then compare it to what is written and passes for normal now.

We are socially engineered beings. We have to take our freedom back.

Ivo, if we're trying to get this all finished up before the December 21st portal, then we've really left it to the bitter end.

Ivo: We are not, my love. Some will be going to the fifth dimension at this point in time, as their efforts to hold the Light on earth will no longer be required. With no darkness to combat, earthlings will be left to match their vibrations to that of Gaia as she rises up through the fourth dimension. With few anchoring the darkness to this earth any longer, the only darkness will be that which you hold within yourselves.

This whole election has been a sting operation created by the Alliance. Amy Coney Barrett's appointment as Chief Justice in the Supreme Court was no fluke. That was absolutely planned

Ivo: Why do you think it is important that there be more Light upon earth than darkness? That the Light has a majority in the people of earth? Bear in mind as well, my love, that what goes on on earth affects the entire galaxy, even universe, so it is also our affair. We are allowed to intervene when our well being is threatened or the well being of the universe.

Ex Intel Official Says He Was the Source of the Pentagon's UFO Videos

Chris Mellon is a member of Tom DeLonge's To the Stars Academy and claims he got the videos "in the Pentagon parking lot."

 By MJ Banias

In the recently released UFO documentary The Phenomenon, Chris Mellon, the former Deputy Assistant Secretary of Defense for Intelligence, stated that he was the source who provided the New York Times with the three infamous UFO videos it published in 2017.

Mellon, who is currently a member of Tom DeLonge's To the Stars Academy, told filmmaker James Fox in an on-camera interview that he met with an unnamed individual in the parking lot of the Pentagon and was handed a package containing the three videos that formed the basis of the most important UFO article in many year.

• **Alex Collier**

"In the ancient way, you **native red American races** understood the nature of the birds. Birds are very sensitive to magnetic fields and microwave energy, as you call it. They will migrate along the earth energy grids and their wings, which are made up primarily of feathers, were to be watched, as they were very sensitive.

To watch and follow the birds is to know which way the earth's magnetic flows are moving. The **native American races** would also camp off (apart from) these magnetic flows because the radiation would become harmful in time. The feathers are very sensitive to energy fields, magnetic fields, and are in fact a (type of) antenna. The feather would attract telepathic communication with all the tribe. As the chief would think or quietly discuss plans, the rest of the tribe would in the ancient days receive the message, with few or no words."

Val: One of the recent themes in orthodox media, especially movies, is that Draco **reptilian species** have a penchant for pituitary and adrenal type substances, and that they try and get these substances any way they can, even to the extent of ripping somebody's brain out of their head in order to acquire these hormones.

Alex: Well, these hormones, in essence, hold emotion. The brain and spinal fluids hold emotion. It is what nourishes the nervous system and the brain.

"You mentioned that the **Lemurians** and **Atlanteans** were extraterrestrials and you also mentioned **Nibiru**. Tell us about **Nibiru** and its role and relationship to us in this solar system."

Alex: This is what I have been told about who those connected with **Nibiru** are. A very long time ago, colonies on **Sirius B** and the **Orion Group** were having trouble with each other. In order to bring peace, there was a marriage between two members of each group.

The **woman** came from the **Orion Group**, where the hierarchy includes a queen - the matriarchal paradigm. The **male** was from **Sirius B**. Both members were considered royalty of their respective line. When these two came together in marriage, their offspring had the genetics from both lines.

Because of these genetics, the new race that was created was given the name "**Nibiru**", which I am told by **Morenae** in the **Orion tongue** means "divided amongst two". This is who they literally are - a cross between those from **Sirius B** and a race from the **Orion** system. They formed a new "tribe" which has continued to flourish for at least hundreds of thousands of years. So, they are a tribe that has become a race.

The process of water fluoridation also interferes with the hippocampus, which in turn interferes with the ability to challenge tyranny.

There are no priests or "saviors" authorized to come between a human (soul) and our maker. Each experience is personal, and different than another, and should not in any way be meddled with or judged. Each soul should become conscious of the divinity that is in itself. No religions.

There should be no shrines, no temples among you. Accept nature and the caretaking of nature by mankind. Be a real, natural human being. Your real faith may not be formulated in creeds, as you have been taught, but from a deeper portion of yourself that you have forgotten, or ignore. Temples were built on your planet to honor and worship the extraterrestrial beings believed to be Gods. The Is-ness can be worshipped by honoring yourself and that which is given you. By honoring yourself you honor the Is-ness, because you are truly One and the same.

Now, Alpha 1 and Alpha 2 (under Blue Moon) control compartmentalization, building and applications of alien technology. According to the Andromedans, Alpha 2 is MJ-12, and MJ-12 is at the bottom of the hierarchy, even though we are led to believe that it is at the top.

Alpha 2 also controls the release of information and the security of that information. MJ-12 meets in a facility called the "country club" in the mountains of Virginia. The "country club" is owned by the Rockefeller Foundation. The vital meetings are held underground, and the members of MJ-12 are taken via a small subway to the town of Warrenton, Virginia. From there, they are taken to an underground city called "Ravenrock", which is located just south of the Blue Ridge summit in Pennsylvania. The effort and energy they put into keeping all of this secret is incredible. It's nice to know that a race 2.2 million light years away knows what is going on here.

Most of the underground tunnel system across the United States is between 2,500 and 3,500 feet underground. The Boeing Aerospace Company built and created fuel batteries and power generators to operate this subterranean highway system that is apparently all across the United States. Apparently, in these fuel cells, they mix chlorine and hydrogen and electricity is created, as well as hydrogen chloride, which is then re-separated again into hydrogen and chlorine. The process continues forever, creating electricity forever. It never wears out, apparently.

The planning and implementation for blueprints and designed for the tunnel connections underground was handled by the Navy. The National Research Council was responsible for the underground tunneling systems across the United States. The management of all these facilities is handled by the Department of Energy.

Now, the machines that were built to create this underground tunnel system and the underground facilities were built by the Jarva Corporation of Ohio, the Morrison-Knudson Company out of Boise, Idaho, and the Robbins Company in Washington State. Most of the financing for this program, and all of these facilities, has been done through the NSA.

https://www.bibliotecapleyades.net/andromeda/esp_andromedacom_7aa.htm#An%20Essay%20on%20the%20Concept%20of%20Leadership

There are several underground bases in Nevada, including Groom Lake and Sunspot. There are 19 miles of caverns and tunnels in the Yucca Mountains that are used for the construction of gravity craft. This area is also attached to S-4. These facilities were designed and built by the A.A. Matthews Construction Company in Maryland, which was once owned by the Payseur family (See Alex Christophers' Pandora's Box). Now, relative to S-4, the Greys gave our

government nine of their craft. Out of that nine, our government duplicated and created 53 other craft. The NSA now has at least 53 of these UFO-type craft, and virtually all of them are sitting on the moon at this time (1995).

Geo-Electrical Grid Anomaly Launching Sites

In the Indian Ocean, there is also a base at **Diego Garcia island**. Now, the earth has an electrical grid system around it, and there are times when this grid system shorts out, and where ever it shorts out, it creates anomalies. Well, two places that are predisposed to these anomalies, on a regular basis, are the area of the Bermuda Triangle and the *island of Diego Garcia*.

My understanding is that when the grid shorts out, gravity becomes null and void. Whatever is caught within that area when the grid snaps back is blown up into space. What they would do is that they would send a craft from the **moon**, hook up a towline to whatever went up from **Diego Garcia**, and simply haul it to the **moon**.

Tractors, bulldozers and all kinds of equipment to build underground bases and to move earth have been "launched" from **Diego Garcia island**. They actually have platforms built, and they slide them out to where the anomaly is going to be, and they just sit there and wait for the anomaly to occur. Boom.

Once it occurs, the item is instantaneously up there in space in the upper atmosphere. Now, this has been going on for more than 30 years, and all the while no one has had a clue.

More Historical Review

In the late 1950's the Greys approached the Russians in regard to the idea of mutual exchange and signing treaties but the Russians were already at the time included in the proceedings of the NSA, and chose not to sign an independent treaty, because they knew full well that the Greys would try to pit the United States against Russia. It is, in fact, and I have gotten this straight from Vissaeus, the Soviet Union that informed John F. Kennedy of the presence of the Greys during the Cuban missile crisis.

The Andromedans have stated that the Russians were trying to blackmail the U.S. into sharing the alien technology. Thus, the Russians put the missiles in Cuba in order to attempt to intimidate the United States. The Russians became increasingly aware the NSA and the CIA were developing incredible technology and were not sharing it with the Soviet Union, as was the original agreement shortly after the Roswell incident in 1947.

Apparently, Kennedy asked the CIA three times if the Russian allegations were true. The CIA lied twice to Kennedy, even though nuclear weapons were only 18 minutes away from striking the United States. They just lied to him. This prompted Kennedy to want to "scatter the CIA to the winds".

This is one of the more important reasons the "black government" saw Kennedy as a threat, and why Kennedy died prematurely. It was the desire of President Kennedy that some of this technology would reach the common people, and be used for the betterment of mankind.

See about Rockefeller funding of Auschwitz “Doctor of Death” Mengele’s early eugenics work. US intelligence seized **Mengele**’s records about torturing child sex abuse victims to create multiple personality syndrome for covert purposes, i.e. in *the alleged Monarch program* later associated with various CFRmembers.

WW2

Evidence of the US recovering a downed ET craft in 1941/42, may have been a means of ET’s leveling the playing field in terms of providing similar ET technologies to the respective sides in the World War. Hitler’s invasion of the Soviet Union in 1941 was testimony to Hitler’s confidence that his secret weapons technology programs would be successful in producing the offensive weapons required for Nazi victories in Europe.

At the end of the war, the superiority of Nazi Germany’s technology was starkly revealed by correspondence between Major General Hugh Knerr, Deputy Commanding General for Administration of US Strategic Forces in Europe, and Lieutenant General Carl Spatz in March 1945:

“Occupation of German scientific and industrial establishments has revealed the fact that we have been alarmingly backward in many fields of research, if we do not take this opportunity to seize apparatus and the brains that developed it and put this combination back to work promptly, we will remain several years behind while we attempt to cover a field already exploited.”

You tend to believe paradoxes, such as the way to peace is through war. The way to peace is by being peaceful. It is not about taking up aggression or not being able to resolve one's difficulties. You see this now as Trump brokers peace deals in the middle east unheard of in prior years. Because he has removed the problem makers. Those who did not want peace. Now you will see peace on the surface. Your people have to learn you are beings of peace, not beings of war. Reptilians and draconians are beings of war, they know nothing else but their urge to dominate and exploit others. Even then, some are learning, they are more evolved. But the ones who control the surface are who I speak of. They have tricked you into believing you're like they are. You're not. You have their DNA. DNA can evolve through the continual cessation of urges to dominate and be warlike. It can be done and it has been.

You believe the paradox that in having a physical body, it makes you whole. No, in fact it separates you from the wholeness of creation and your memory of yourself. This is sad. You believe the paradox that you must seek love, when in fact you are who you seek. You are love. You put yourself down, yet seek outside of yourselves for someone to love you.

Our meditations have managed to somewhat stabilize the positive path towards the Event.

A few days before exact Eris-Pluto heliocentric square meditation on August 31st, cloudships and rare multiple rainbows appeared in Taiwan.

The Solar System beyond Lunar orbit is already entering the Age of Aquarius as last vestiges of primary anomaly are being removed from there. Massive influx of angelic Light energies is now being experienced throughout the Solar System and people who are sensitive to energies are able to connect with it.

Clearing of Draco fleet is proceeding according to the plan and Light Forces have communicated that the probability of Draco alien invasion is now less than 1%, probability of fake Illuminati alien invasion is 7%, probability of US-China war is 9%, whereas probability of US civil war remains at 35%.

Mjolnir technology that the Light Forces are using is actually quantum cannon technology which emits a strong scalar field through the quantum foam and forces all matter waveforms from quantum superpositioned state into physical manifestation. This forces all Draco ships to appear into the physical and they are then immediately contained by the Galactic Confederation and their personnel processed through the Ganymede sorting facility:

Mjolnir motherships are positioned in a giant dodecahedron just beyond Lunar orbit and are emitting strong Mjolnir forcefield towards the Earth.

When Light Forces were clearing Draco fleet they have rescued many hostages, among them twin souls of many key commanders within the Galactic Confederation. Those commanders were threatened by the Draco that their twin souls would be tortured if the commanders would not cooperate with the Draco and sabotage many plans of the Light Forces. This is how the Draco were able to create many delays and setbacks and this is why the coronavirus pandemic could not be stopped in January and February.

Those twin soul hostages were rescued, and compromised commanders taken to Confederation motherships outside our Solar System, where they will be able to get healing and then they will repair as much as possible the damage they have created.

Those compromised commanders were also responsible for spreading of much of fake intel through many Lightworkers channels in the last few years. This is one of the main reasons why most channeling sources are not reliable. The other reason is that those Lightworkers have a belief system that they know everything, and they appear to be speaking with authority, when in reality they are mostly clueless. The third reason, already stated many times, is the dark force infiltration of the Lightworker community.

Now with that major sabotage exposed, the Light Forces are able to progress much more effectively with much less delays. After they remove the Draco fleet, they will begin systematically clearing the Illuminati Breakaway Complex (IBC):

<http://2012portal.blogspot.com/2018/01/operation-mjolnir.html>

The vast majority of Cabal members in the IBC and also on the surface are naturalized Dracos, meaning they came from Draco star system many thousands of years ago and then took incarnation cycles on Earth by incarnating in human physical bodies while keeping Draco energy bodies.

They now unsuccessfully want to create their own version of the Reset and push this planet into technological dystopia.

• **IVO:** As for California and its fires, it does have to do with Lemuria rising. The demonics are working on destroying your landmasses and lowering the frequency of your outer earth. They release nuclear explosions, they bomb the land, they cause typhoons, hurricanes and tornados. This all has to do with landscaping, if you'd like to call it that. Their preference is desert, and watery landscapes of bright sunny weather really do not appeal to them at all. Remember, they do want to live upon planet earth, to take your place and to imprison you for their use, so this is their plan: to destroy the earth's surface. Having a landmass of pristine soil for growing with beaches, ready for renewed plant life and human use is not their plan. By firing at California, they hope to unsettle the tectonic plate that supports Lemuria – the plate that is rising, and in so doing, sink it to the bottom of the ocean again.

According to whom? Why, “anonymous,” of course. “Trump rejected the idea of the visit because he feared his hair would become disheveled in the rain,” Goldberg claimed, “and because he did not believe it important to honor American war dead, according to four people with firsthand knowledge of the discussion that day. In a conversation with senior staff members on the morning of the scheduled visit, Trump said, ‘Why should I go to that cemetery? It’s filled with losers.’ In a separate conversation on the same trip, Trump referred to the more than 1,800 marines who lost their lives at Belleau Wood as ‘suckers’ for getting killed.”

Sure he did. It was John Kelly, then Trump’s Chief of Staff, who made the decision not to go to the cemetery. The weather made travel by helicopter inadvisable and the long drive—some four hours round trip—was too risky.

John Bolton, an outspoken opponent of Trump’s who once-upon-a-time was his National Security Advisor, was with the President on the trip in question and he stoutly denied Goldberg’s ludicrous story.

Biological Drug Serums: Plasma infusions that are delivered through dermal application to the neck or other parts of the body with a dermal injector that infuses the different plasma serums dermally under the skin. There are also other types of biological drug serums which are not plasma but derived from biological monoclonal processes. All the biological drug serums are synthesized through a replicator. These biological drug serums are designed to regenerate the physical body and heal diseases like autoimmune disorders, acclimate the body to the Martian atmosphere providing more oxygen to the brain and heart, etc. Other functions of the biological drug serums is to reverse the aging process and if ET DNA is infused into the biological drug serums it can then change the human genome in order to make humans into ET/human hybrids as the biological drug serum is the delivery method of injecting ET DNA that overlaps the human genomic sequence to change the human being into a new ET/human hybrid with the traits of the ET characteristics like the ability to change on the molecular level for skin color, weight, height, strength, self-heal the body where damaged body parts are completely mended, bilocation teleportation of physically teleporting yourself from different locations to other places as well as planetary teleportation, long range telepathic communication with ET's, etc.

Memory Engram Stations: The Memory Engram Stations are designed to review individual's memories, and retrieve them from the brain so they could be downloaded into various digital databases and be kept on SSP assets medical records. As well the memory Engram stations are utilized in order to gain access to SSP assets genetic cellular memory in order to see past life times as ET's and see how advanced technology is built, the terraformation of planets, building planets from scratch through biological technologies, how bioships work, and how to activate latent psionic abilities, etc. Another capability of the Memory Engram Stations is to do blank slating and wiping of SSP Assets memories and replacing their original memories with sets of false memory engrams so the SSP Assets cannot remember classified information.

Neurolink Implants: The Neurolink Implants are implanted inside the brain and they are made out of nanite technology that is fused with gold nano fibers which are attached to the neurons of the brain in order to form a neuronal web connection that augments SSP Assets psionic abilities, improves brain capacity stimulating photographic memory and allows the Neurolink implants to interface with different technologies.

These Neurolink implants allow the SSP Assets to telepathically communicate with each other mind to mind, form neuronal connections with various ship navigational systems in order to

The Neurolink implants are partially made out of nanotechnology. Neurolink Implants are small and they are injected into the neck and the nano scope travels to the brain it's less than microscopic in size, then it fully opens up in the brain once it reaches the correct neurons that it is supposed to connect to. There is an energetic net in these nano implants it's almost etheric its SSP tech mixed in with ET energetic components, this technology is 200 – 300 years more advanced than the Neuralink microchip implants. The Neurolink implants never have to be physically removed from the brain if they ever stop functioning correctly they can be removed by specific psychic codes dissolving the energetic net that powers the implants.

Neurolink Chairs: The Neurolink chairs are technology that allow augmented humans with Neurolink implants to connect with the neuro interface of the cybernetic chair tech and be able to track or monitor individuals at any time as well as view any events happening on the planet or out in space. These Neurolink chairs can be adapted to view timeline events either backwards in time or forwards in time, as well as open star gate way portals in order to travel to various points on planets or even different solar systems. The Neurolink chairs allow to create holographic constructs where individuals communicate with each other in real time through a virtual biofeedback slip stream loop in their minds, seeing places, locations, and other people interacting with each other. As well the Neurolink chairs can be used to download information or upload data to them, archive memories, and retrieve information from various databases.

Quantum Leap Time Travel: Through zero point time dilation in holographic medical pods and portal jump gate technologies creating concurrent time lines which have a time portal matrix quantum bridge that allows to travel between Earth time and Mars time in a seamless reality where nothing is noticed, affected, or changed to account for the SSP Assets traveling to other planets for a 60 and back, the time dilation matrix technology allows to alter the time sequences so it seems like time has not passed when in fact an SSP Asset did 60 years of SSP Asset Service in the span of 5 – 10 years in Earth time.

SSP Asset(s): A civilian or military individual who has psychic abilities and can be integrated to work with advanced technologies where psionic abilities are required to remotely pilot ships/craft in outer space, work in cybernetics labs interfacing and testing neurolink implants, operating the holographic medical pods, gathering information for collation and integration of medical, tactical battle, advanced technologies, ET species history, languages, cultures, planetary history into various data resources being transferred into the holographic databases on military bases and orbital space station platforms super computers in classified data vaults.

WHY?

• IVO.

The people you call sheep are the people that have lived on this planet, who were once gods, and now are living with only two active strands of DNA through no fault of their own. These people have suffered lifetime after lifetime of futility, violence, abuse, toxicity, murder, rape, starvation, struggle, and more, and then having to hold down jobs in a pay-your-way-through economy, an economy that was created for them by beings that stole their world from them. Starseeds and lightworkers have come here to help free them. You have lost that focus when you call them "**sheeple**". Hopefully, it's only momentary and you can correct your error of perception and continue on with compassion for this world. Having compassion for them only helps you in the end because it puts you on a better timeline with a better outcome and re-empowers you. It opens your heart and connects you with soul, which is a much more preferable way to go through this Storm than in fear and ego. You have two minds: a lower mind, controlled by the dark forces, and a higher mind which is free to be who you truly are. Use your higher mind.

The only way through this is by helping others, opening the heart and caring for those who are stuck, absolutely stuck, and who have been reincarnating over and over into this living hell. Look at the eyes of some of the older people, as I have; the Light they reflect is dim. These lives are running on empty, and these people were once the gods that ruled this planet. Is it any wonder they don't want to listen to us when we make fun of them and condescend to them? No wonder they don't seem to listen. Don't you think they've taken enough abuse? Yes, I know, they abuse us before we even think to abuse them. It doesn't matter. Have compassion anyway. Your

response to their behaviour doesn't have to be the same as theirs, fear based, it can come from your compassionate soul.

Earthlings have the best DNA of all humans in the galaxy. You wouldn't know it to look at them now, would you? You have incarnated here to help to change this DNA and the way to change your DNA is to change your frequency. Your thinking and your emotions reflect whether your frequency is high or low so use them as a gauge.

Me: So the ten days of darkness?

Ivo: If it does happen it is a cabal initiative, not one of the Light. Your people are pulling information out of the bible, with the assumption that the bible has never been re-written by the cabalists. This is an incorrect assumption. It is very modified. Who would want your world to experience ten days of darkness? The dark, of course. There is much in the bible that is intended to make you fear. Were you to have read the original version, you would be shocked at the difference. You must consider, as well, that the bible was created to support religion and religion has been a cabal control program since time immemorial.

Me: Okay, that clarifies that too. Fact is, Q has spoken about the ten days of darkness but then he/she/it never specified what it meant, so it's anybody's guess. And don't think the Cabalists aren't going to watch the posts and get their own people interpreting them as well.

The other thing, Ivo, is that you're not going to get a nation of patriotic Americans to stop

reading the bible. They have their bibles in one hand and their guns in the other and they're not going to give either up.

Ivo: We know this, my love, however I am simply making a point.

Ivo: Trump will pull the plug and let the air out of as many of the illicit deep state businesses as possible without creating a shaky economy. We are not looking for an earthquake, we are looking to create change and to clean these businesses up and make them integral, compliant with constitutional and then GESARA law. And it may be that one after the other is readjusted, or several at one time, but we are not looking for an economic implosion.

This type of collapse is required by the globalists because they wish to change your world to a different sort of economics. Instead of having the economy suit you, where you purchase what you need and like, they wish to change it to a system that has you working to mine, create or otherwise provide them with more gold, silver and other precious metals or products they can barter with the rest of the galaxy. The role of the earthling as a consumerist will be complete were you to enter this stage of their game. They require a complete collapse as they wish to go to microchipping and a cashless society. When they have this level of control over you, they will only provide for your minimal needs and nothing more.

Me: Only enough to keep us alive.

Atlantis broke up into many pieces as it sunk underground. Large pieces broke off and were blown to the corners of the earth. So this might well be the case. As far as Antarctica goes, there are remnants of other civilizations there as well and the technology they've found they're trying to learn how to use. Technology that extraterrestrials use always works on frequency. If you don't have the correct frequency, you can try all you want but it won't work for you. So we're not really worried about the fact they've accessed it. All they can try to do is create copies based on their meager understanding of ancient extraterrestrial technology.

Me: Do you consider yourself an ET?

Atlantis didn't ascend, obviously. Some people on this island did but there was no earthly ascension as was hoped at the time.

Anara: It was a quiet life we had, very peaceful. At first we became aware of a presence that was disturbing, and then the presence made itself known. This presence were the beings from Mars that were selfish and self-serving, unlike the people of Atlantis. We had worked for many eras, to rid ourselves of selfishness, negativity, and had become a loving service to others and God world. A beautiful world with marvelous crystal technology and wonderful temples that we would worship in. We lived for the marvel of just being. We lived as one people, loving and caring of each other. People were telepathic, people worked with crystals, people ate simply but loved deeply. It was an absolute heaven.

Then this presence came to earth. It landed on a desolate part of the island and began to incarnate as Atlanteans. We noticed that our people were falling out of our frequency; they were beginning to become negative again. They were becoming evil. These people gathered in groups, they began to practise the dark arts, they experimented on children, they experimented on animals. They lived sometimes underground and came up to the surface. They didn't fit in with the others but somehow they grew stronger in power and overpowered the minds of many of our people who were not the highest in frequency. They overwhelmed them, and took them under their wing

to practise evil as they did. Eventually, after many attempts to turn the entire population, they did not succeed but in their attempts to control the populace, they blew up the island.

They caused an explosion that was far worse than a nuclear explosion. They reversed the flow of the crystals. They created anti-energy.

They created anti-matter, is I think how you explain it. It was a matter/anti-matter explosion.

This caused flooding all over the planet and changed the cartography. Islands sunk in the ocean and others arose. The English Channel was once a land mass connecting Britain to the mainland. It's now filled in of course.

Coastlines changed, new lands emerged. It changed the entire planet. Lemuria sunk at the same time Atlantis was exploded. Now you only have bits of it left in Polynesia and throughout the Pacific. All those islands were once that tropical paradise. In Canada all the islands in the Arctic Ocean were once a solid landmass.

These evil ones overtook your world. They created the world you know today, with your evil Matrix and the sociopathic leaders. These were the sorts that landed on Atlantis years ago. The same people. You have that in common with us.

They haven't changed because they can't change. Evil is evil. Life evolves; evil devolves if anything. It tends to stay the same.

Earth was a beautiful jewel at that time. Pristine. Glorious. Blue. Lush greens and bright flowers of all colors. So much fruit and vegetable growing everywhere. The taste of the foods was so strong, so delicious, your foods pale by comparison now. There were many more types of plant life that bore fruit that you don't know now because your environment is too polluted to sustain these plants. They're too delicate and so you have a much more limited choice of foods than we did. We could eat all day and there was so much to choose from.

Anara: My life story. I came to earth to teach. There was no veil of amnesia at the time, the dark ones installed that later. I came to teach the ways of the universes, the mystical, the magical and the divine. I had a partner who was not Ivo, he was an Atlantean named Lenor. Lenor was a Lyran who incarnated in order to teach the Lyran ways upon Earth. We worked together as mystics and taught all we knew to anyone who would listen.

We didn't have jobs to earn income as you do now. We ate for free, lived for free and all was provided for that we needed. It was heavenly! But all that changed with these dark ones. They created human slavery programs to enslave you to their will. And you still are.

There was now domination of the negative and this changed the earth as well. These vibrations will change what you have at your disposal. The food chain changed, people began eating meat out of desperation to stay alive. There was starvation post Atlantis, in about 12,000 B.C. roughly. There were thriving civilizations but others began to wane.

Many Atlanteans moved to Egypt and tried to recreate their beloved home there. It was a lush territory with much water and fertile soil, so they tried to start again. The pyramids were there from ancient civilizations and so they attempted to use that energy to help themselves but Egypt too was overtaken by darkness.

Once these dark ones began to dominate in Atlantis they were already part of the earth collective and could incarnate anywhere now. They did, and then their compadres from the stars showed up as enforcements. Earth changed. It changed so much.

You experience many on earth now who are not capable of any mystical practise because they don't have the correct energy to do it. Energy must be positive and there must be enough of it in order to be able to fuel the practise. It's your energy that creates the effect. If you have less energy because it's being siphoned off by malevolents, then you can't do that work.

PROJECT STAR GATE was the official 1991 code name for a secret U. S. Army unit originally established in 1978 at Fort Meade, Maryland, by the Defense Intelligence Agency (DIA) and SRI International, a California contractor at Stanford University in Palo Alto. STAR GATE investigated the ability of human minds to “see” events, sites or information from a great distance. The CIA ended STAR GATE in 1991 in a controversy of pros and cons about the intelligence value of Controlled Remote Viewing.

Is Ashtar trustworthy? James Rink says no.

Ashtar: Hello, Sharon. I am Ashtar at your service today.

Me: What effect would that have on our planet?

Ashtar: Less than you think. The primary reason we would blow up the moon, however not any time soon, is that it is an empty shell, a satellite that is used to house extraterrestrial life as

overseers of your world. The moon is a false object. It should never have been there, and of course its use has been for the control of your planet, nothing else.

Me: Has that always been the case?

Ashtar: Yes. The moon hasn't been there as long as you believe. It has only been there as long as the last galactic sun cycle - 26,000 years. It was put there, in fact it was driven there - and placed in earth's orbit so the gravitational forces of earth changed at that time. It has been used to change many of your fields - gravitational, electrical and magnetic, influencing the sun's energy as it hits the earth. The moon has, at times, been able to block the sun entirely and you know these times as eclipses, which you all find fascinating, however you're not aware of the diabolical influences who celebrate at the time they can block the sun from you - the children of the sun!

Ashtar: As for your seasons and other natural cycles, they will return to normal - as based upon the sun's influence. Your world will not wobble, as is feared, when there is no moon - it will return to the normal rotation it has always had before it was interfered with.

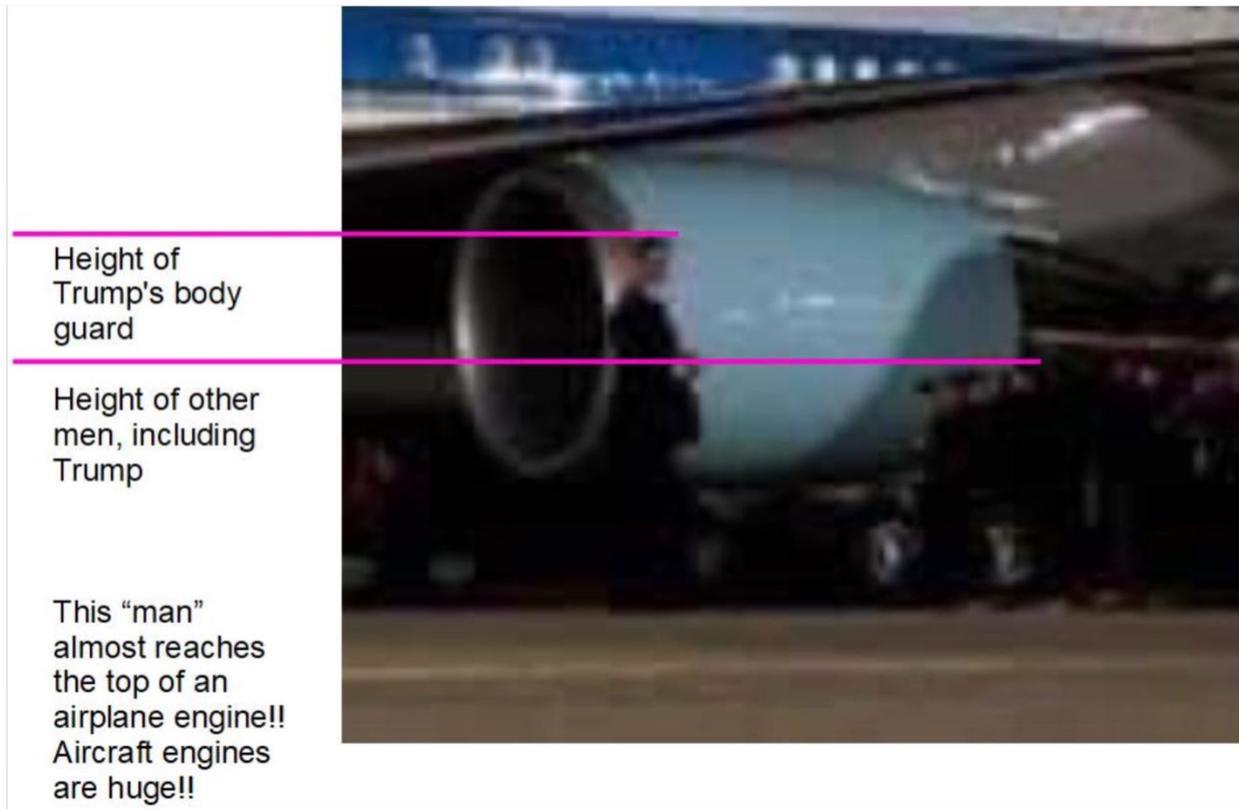

You have to understand that your world is highly interfered with and there is virtually nothing natural about the way you go about your lives. Your lives are very unnatural. You adjust because you believe they are natural, but they're not. Nobody in the galaxy lives as you do, not even on other third dimensional planets.

Me: Yeah, I'm understanding that now.

Ashtar: Your planet is a twin planet of another in the Pleiades. Their rotations used to reflect each other; now that is not the case.

Me: What's the name of that planet?

Ashtar: **Cleor**. It is a reflection of your planet's rotation, at least it was. Now perhaps you'll fall back into alignment with it again.

This image is unconfirmed. Is it real?

Sharon asked Ashtar if Trump is in contact with him, and he replied that Trump is in contact with many extraterrestrials of the Light. The size of this guard, who Ivo declares to be "a reptilian in a bio suit" bears that out. By the way, remember reptilians work with the Light as well; they're not all bad.

Ivo: First must be considered that the Galactic Confederation have neutralized many of your nuclear warheads, their launch pads and the gantries they rest upon across the world. Do you think your governments were not aware that this was being done by our forces? Of course they were. As well as their many attempts to shoot our craft down as we flew through your skies. They understand we interfere with their politics and their evil schemes so when they saw us flying around during wartimes, nuclear experiments, and other black listed projects, they sent up your warriors to pursue us, of course to no avail. We sit now within your atmosphere, our mother ships just outside of it. Your politicians, your deep state knows that we are to be reckoned with, and part of the reason they wish to keep quiet the extraterrestrial question is so that you do not understand you have allies from space, that you are not victims of your governmental regimes. And that we sent our own to earth, and are working with them and the open earthlings of higher consciousness in the past and in this now, instead of the governments of your past they were aware of but could do nothing to thwart us.

Ivo: It will take a lot of work. It already has. This transition, as you noted the other day, was in fact supposed to begin around 1967, as you call it, "The Summer of Love." You noted the book title for the New World Order Agenda was "1984" and this was when their agenda was scheduled to be completed. We have managed to hold this off for many decades in order for your people to wake up sufficiently that we could begin to create the changes. The changes that were scheduled to be in place in 1967 were not even half as severe as the pain your people will be put through now. (Reading my thoughts): Yes, John F. Kennedy was the president who was to work with us in the first proposal of the 1960's, however as you know, he was assassinated by the deep state in 1964. Russia was fine at that time with Brezhnev as leader but the other country in question was the U.S. The first order of duty would have been to make peace with Russia, as this was the time of the Cold War, however it did not occur. You will notice that the Beatles made their way to the U.S. in 1964 to be used as a distraction for the many lightworkers and starseeds that were incarnated there at the time - the hippies.

If you look at other key points along the way, you will see the death of Diana in 1997 which was another key time for this to take place. She was to reveal to the people, because they trusted her, the truth of what was happening upon earth and who the cabal were. She was silenced. The Chimera launched a large attack in 1996 and it was our hope to be able to take earthlings from the lower timelines before this happened, however we were unsuccessful. The murder of Diana was in retribution for our attempts to ward this off Chimera attack. They had her murdered. Then we move forward to 2001, when the twin towers were exploded, and this was targeted because the computer with access to the St Germain funds lay in the towers. Tower 7 was necessary to implode because this was a back-up system to the main control.

With Pentagon UFO unit in the spotlight, report mentions 'off-world vehicles not made on this earth'

Some of the objects were of man-made materials, but others are questionable

China floods may be weather weapons. Retaliation by factions. Purge by XI PING.

Regions downstream are most severely affected.

The flood in China 2020 is considered unprecedented during several decades, while the authorities are researching what is the reason.

EMERGENCY BRIEF: China has stopped publishing inflow data to Three Gorges Reservoir If you know more about disasters and how economy or food prices internationally may spike because of this event, please leave comments below. I am watching in real time the almost complete destruction of China's central grow region as emergency warnings are given as engineers blow dam after dam and levy after levy to evacuate major cities and farm lands with livestock. What I am watching will have an effect on you in the US, but I am not sure the lag time from these unbelievable events that are out of a Hollywood movie and real price increases and finance shocks.
