

NOTES 2020. #B

John W. Warner IV

Once again, I urge the reader to use great discernment when considering IVO, Qanon, and any other insider, researcher, and topic.

• IVO. Obelisks, Wash. Monument

Ivo: As for the bubonic plague, it is possible to morph the pathogen into something more virulent. They would have no objection to doing this especially in light of the fact that Trump is looking to win the election. They do not like losing power and will stop at nothing to regain it, and if that means spreading disease and creating more stress for your people, then that is what they will amount to. These are sociopaths with no compunction to kill.

We are taking your heads of state out of their positions and **depositing clones or using holograms, as has already been noted in the case of the pope**, to allow those unawakened to believe that earth is as it always has been. We are in the difficult situation of having to create a reality that aligns with the thinking of the unawakened while removing those perpetrators who created it. So clones and holograms are the way forward.

You are aware that trials are being carried out now and as you also know, these tend to be a long process. This will take time, the trial of all involved who are guilty.

Meanwhile there remain many factions of the deep state at large. We are tracking them down and arresting them, however they have such a complex system underground that finding them all can be difficult. Remember too that they have the technology to confuse our systems and so we watch for telltale signs that we are dealing with a shapeshifter and then arrest the entity. We know them more so by their entity names rather than the names you have given them such as your Hollywood actors.

We are indeed disarming military satellites, clearing out **draco ships**, destroying their world which hovers slightly above your world, reversing the polarity on many earth vortices, removing dark ones from the DUMBs, destroying their technology but then we must first reverse the destruction their technology has caused, particularly out in the universe, we are re-uniting the quantum fields around your planet to work in unison again. Any effort you make to help us with these things is most appreciated. Focus on helping us by sending us your energy. As one who lives on the planet, as opposed to not, your influence is very strong.

Coming up, we have the task of reversing polarity on many sites occupied by the **phallic needles, Cleopatra's needle in London, Washington DC, and many others**. These needles create their own matrix and to reverse the polarity of the needle will help reverse the harm this matrix carries out on your planet. It will help break the pull of the power mongers over your people because these polarity reversals in your major points across the world **lower the polarity**

of the energies of all who come into contact with them, and all who are influenced by these world leaders who draw on their energies. They are like batteries.

Me: What are they fueled with?

Ivo: Your energy. They take it and reverse it and put it into this power matrix. You will find these needles in many parts of the world of **high power**.

Me: Ah. I stood right in front of Cleopatra's needle. LOL I saw something the other day on these needles. I always thought they were to represent a phallus.

Ivo: **Not as much as a lightning rod in effect.**

Me: Worth studying. Let me research their locations.

Ah yeah, New York City, Central Park

Ah, here we go.....

Egypt – 11

France – 1

Israel – 1

Italy – 13 (includes the only one located in the Vatican City)

Me: Geez! **Look at Italy! They have 13 of these! This is a powerful place!**

Ivo: **Yes, home of the Archons and of evil itself.**

Poland – 1

Turkey – 1

United Kingdom – 4

United States – 1

Okay, so the Egyptian needles, you're talking about?

Ivo: They create a matrix of energy absorption and reversal of polarity. We want them nullified. We want this minor power matrix's polarity reversed. That anyone can help us with by sending energies to these locations.

Me: Got it. If anyone wants the list, it's on wikipedia under Obelisk.

Why would they have one at the British Museum, other than to show people?

Ivo: Knowledge is power, my love. And they stole this power from Egypt.

Me: Oh my God, yes. Now I see it. Egypt was a world power in its time. Steal the lightning rods and install them and you get the power they had. I'm sure there are more of those phallic like statues around, Ivo, not just the Egyptian ones. There's the one at the war memorial in Washington. I think that's different. It'd be interesting to know what they're made of. Red granite. Hmmm. Doesn't sound too powerful. Here, I researched this: "Rosophia (Red Pink Granite) considered a "guardian stone", Because the rock enhances the ability to be practical and disperses negativity, it helps overcome skepticism. It also aids in diplomacy and improves people's cooperation." Disperses negativity?

Ivo: **As we said, my love, they came from powerful places on earth and their polarities were reversed so now the rocks are counteractive to their origins. All rocks have energetic properties. They are alive. Just because they do not move, does not means they are not energetically potent.**

There are many of these sub-matrix power structures, including **churches**. Each different part of the world with its own deep state faction has different lightning rods. In the **same way we built the pyramids to harness the energy of Gaia**, the Deep State has produced their own energy circuits around the world. You will also notice that they are in heavily populated or previously heavily populated areas.

The Oracle of Pachacamac

Located 31 km from the Peruvian capital, on the old Southern Pan American Highway, overlooking the fertile Lurin Valley and the Pacific Ocean, this vast ceremonial complex housed the important oracle of Pachacamac – “The One Who Generates the World” – great god of creation, of the spirit that permeates every living thing, a fearsome deity associated with war and whose anger resulted in tremors and earthquakes.

• **Ashtar/IVO 7/6/2020**

You are aware that many involved in **Pizza Gate** have been arrested, tried and put to death. Currently clones walk the earth, regulated by light forces, in order that all would appear to be normal.

Removal of children from the DUMBs is still ongoing. The dark forces still exist there as well as around the surface. There are still cabal members upon the surface to do their bidding but these are bankers and business people, who now, too are being arrested.

You will read articles that these business people have been infected by Covid 19, taken ill, been fired or left their positions in business or otherwise suffered some other extraordinary change of events. These are the cues to look for to see where your justice system is at work.

What we are aiming for is that the surface is owned and operated by the people of earth. They will be under guard as the DUMBs continue to clear and key operatives in the Illuminati continue to be removed as necessary. Where non-compliance exists, removal will take place.

All heads of countries are either arrested or working with the Light. They are still able to communicate with their countries but their work is scrutinized by the light forces that have them under guard. So it seems that they are still creating havoc but you'll see that they won't be able to for much longer. This is an educational period where people of this planet are targeted to wake up. Those who refuse to wake up will be in the minority in about a year's time. Most people will be awake and aligned more or less with the Light. Progress is up to the people. When the expectation of more is held by the majority, change will occur. It is your collective frequency that allows for current events to unfold.

With this in place, success is ours. There is no dark threat anymore on your world if all believe in the goodness to come to you. We are looking for a solid majority to anchor all the positive energies on the planet, and to create the new world from the ruins of the old.

For areas that are still under cabal siege, this is also so that people will wake up. Many still believe that BLM is fighting for the rights of black people and this is false programming. Eventually they will realize, as the issue grows stale, that this is not what they are doing. Please continue to expose the perpetrators.

As for the media, they are losing power. Fewer people are loyal to their news channel as they begin to suspect that something is amiss. When you keep hearing that you must stay at home and wear masks, eventually you begin to look elsewhere for another point of view. It is that the news told people what they wanted to hear, and this is no longer the case. They are telling them to continue to be patient, and the public is losing patience.

As for the recent meditation at the Jupiter/Pluto conjunction, the quorum was reached. Many

unfortunate events have now been avoided for your world, and the route to freedom made shorter. We foresee months taken off the route that you were previously on, and this is wonderful news as many deaths have been avoided and greater growth will manifest after the financial collapse.

Sharon Stewart: I just heard from Commander Markarel, I think, that the dark forces have been releasing bio agents into the DUMBs in order to stall the soldiers as well as the Light forces who are coming down on them. Is this true, Ashtar?

Ashtar: Of course, Sharon. It's true. They are releasing bio weapons, very nasty ones at that, on us, and at first we were affected and made ill, however we can shield ourselves from this and continue our work in the DUMBs. Those who are ill are providing answers for prevention for the rest of us. We realize they have agents that change DNA, but we have power over our DNA and can change it back readily.

Me: What about the earthlings down there?

Ashtar: Yes, the soldiers we can shield as well. However the humans who live in the DUMBs as slaves are being wiped out. Perhaps the dark ones believe that if they kill off the people we are in there to rescue, then we'll leave them alone. (laughing). Of course, we won't. And for those deeds we will simply have to extinguish the perpetrators on the spot. Guilty. No trial. We have divine permission to do so.

Life in the DUMBs isn't easy. Battling a force that has had the upper hand on this planet isn't easy, however we've studied them and what they're doing for a long time. We have had spies amid their ranks, learning of their plans, who have reported back to us. We have first rate intel on what they're capable of and we realize they'll stop at nothing to be able to survive on this world. So we expected a tough battle and we got it.

Me: Thanks Ashtar.

Ashtar: Yes, Sharon, it will be over soon. We've made great progress through the years via the Resistance and now with the increase in forces we'll make even more.

Me: Ashtar, can we have your comments on President Trump's July 4th speech please?

Ashtar: Yes, it was a straightforward speech. He clearly described the danger facing America from within, and roused the patriots' loyalty to aid the white hats. He clearly said that there weapons will not be taken away, and pointed fingers at the Liberal states that are causing difficulty for his administration. He was quite clear.

Me: I feel that those of us who are in the know picked up on a lot more of the meaning he intended by the things he said. Again, somewhat cryptic but we got it.

Ashtar: Yes. He must speak to all levels of awareness and that's not easy. But his speech was well written, and he described the story of George Washington, who in 1776, crossed the Delaware River to fight off the English forces, who of course, were Cabal forces. There was a rift between the Rockefeller and the Rothschild parties that had the Rockefeller group moving to America and settling there, and that was why a war with England occurred. So what he is not

saying is that one faction of the cabal has indeed remained in the States and drew up constitutional law. But now this faction are the ones who now seek to destroy the country from the inside out, and so they must be taken on by the people and the white hat Alliance, which is what is happening.

Me: So the founding fathers were cabalists?

Ashtar: Of course. They are the ones who play at a global level, to the exclusion of anyone else. And I might add they have taken out many people who sought to defy them in their quest for global domination, and there have been a few instances just in the last few decades.

Me: So, if they start a country with a cabalist agenda, then what good does that do?

Ashtar: Well, in fact they created a country that would benefit themselves and the people they dominated. Had they intended that all **men be created equal**, they would have included women and allowed their slaves to go free. There were presidents born in the interim that created that freedom for others, which Trump mentions as well. Specifically Abraham Lincoln.

Me: So these are nicer cabalists?

Ashtar: In the day, it was easier for the Light to infiltrate politics because of the fact that they did not yet have the strength that they do now. However, remember that Lincoln was shot. So was Kennedy. With the advent of technology and the computer, they have been able to ramp their global control programs up and do it on the quiet. Fortunately there are whistleblowers and insiders that the Light has placed in order to reveal information.

The program has been to make the public progressively more dependent on their agenda and you see now that this is coming to fruition.

In days of old, it was easier for a French revolution to take place and the people to storm the Bastille, as the cabalists were not yet as powerful as they are today. Since their increasing contact with negative extraterrestrial life, they have gained far more power over that of the people, hence they have become more and more determined to exact total control.

Me: So back in the day, they weren't in contact with the negative ETs?

Ashtar: They were, however technology wasn't given to them. Infiltration of your world by negative ETs took some time as well. Your people are not that easy to control.

Me: True.

Ashtar: The negative ET agenda was carried out underground, with little interference in surface politics, compared to today. Resistance from the Galactic Federation and other benevolent extraterrestrials prevented the control of the surface population to the extent that it has been carried out today.

Me: What changed?

Ashtar: Your politicians **deliberately agreed** to work with negative extraterrestrials. You made agreements with them, hence sealing your fate.

They were around earlier as well. But the agreements were not as broad as they are now because your people were not united through technology and not as powerful. With your global economic system where all trade with other countries, the spoils are greater for those from other worlds which seek to exploit you. Back in the day, a group of greys could ask the queen of England for

riches from the Orient and perhaps get tapestries and spices which would not be of the sort of booty they were after. Now this is different. There has always been the one commodity though, **human flesh, genetics, and slave labor**. This has always been exploited. Also your ores, gold, and minerals are of interest to many ET races.

In advancing the technology available to particularly the black projects, ET races have profited more greatly.

With the U.S. specifically, the Rockefeller group had to grow the country. American population was in its infancy for a long time, and considering harsh conditions, native resistance, and cold, diseased winters, America took some time to grow to the world power it is today.

The Rockefeller group looked for ways to exploit the country to find money while the Rothschild group continued with Canada and other colonies, seeking means to gain more money and global power. They devised the economic system long ago in order to allow themselves to do so.

Money was more powerful than the religious systems they had previously undertaken to create, and there was less division in their plan when it came to money. Money was money. All had to work to earn a living, except for the Elite.

It is time for the people to take back their world. No other option can be considered. It is do or die now. Work with us to free yourselves now.

A discussion with a Tall White Nordic.

(Jesus H. Christ sailing a skiff, how many Nordic races are there? ---JWW)

Sharon: You've come to earth at some time in the past?

Eril: In the 1600's. Germany. Been here since then.

Me: So you set up a base and conducted abductions.

Eril: We get permission wherever possible.

Me: To what end are you taking the DNA for? What is your ultimate goal?

To be able to ascend more quickly?

Eril: Yes. There is all kinds of DNA in the universe. Some is good DNA

and some is bad DNA. Some works very well with the structure of the universe and some doesn't.

Me: So you're saying yours doesn't.

Eril: We'd like to enhance it.

Me: So you're a tall white/earthling hybrid.

Eril: Yes

Me: Where do you actually come from?

Eril: We come from Scorpius. There are not many of us left.

Me: What the name of your planet?

Eril: "Karcil A." It's a small star.

GFL, galactic fed of light, says they must leave. Neutrals take DNA without permission.

There's a long vein of just one big ancient tunnel that goes from Antarctica to Terra del Fuego in South America, all the way through South and Central America and it comes up through the Southern States, like New Mexico, and then branches out throughout the States, west and east. The DUMBS system provides the illegal drugs. The big part of the chain is the underground system that includes letter agencies that create and distribute the stuff to the streets. Do you think a few drug cartels in South America are going to be able to keep up with the demand in just one urban city in North America? I doubt it. Again, TV has played us.

They've told me that anything we can use to abuse ourselves will be dealt with. Anything from old alien technology under the surface to poppy plants - they all seem to be on the roster for transmutation into benevolent substances or they're to be removed so we can't find them and fiddle with them.

Draco bases in Brazil for drugs.

Et caps are used to stop telepathy when arrested in DUMBS by Light Forces.

With the reptilians we have the telepathic cap, but then we also shield them inside a bubble. They can bite and they are quite strong if they decide to use their bodies so they have to be mentally restrained. We can do that with our minds.

The future of your world is ecology. The new economy, after your Fiat economy collapses, will be ecology. And it's because it has to be restored that this will be so. So many people will be out of work with the drug trade falling, and alcohol sources drying up.

the Agarthans have all our animal species underground and will bring them back.

Teah: Yes. Also, as botanists, our people have a library of species' fetuses that we've kept incubated. These will simply be released back upon your planet. Already people have been re-discovering extinct animals and this is where they come from. Gaia can create them as well. Nothing is really extinct. You all believe so because you're taught that death is final. Death is only a transition. It's never final.

People will be happy working and harvesting food for distribution around the earth. Of course, your distribution systems will speed up because food will be harvested when ripe and not before

as it is now. Ripe food spoils fast so different transportation modes and holding equipment are being developed. And yes, there are also the food synthesizers.

Washington DC DUMBS

June 30, 2020

Me: So Ivo what's this you're telling me, they're battling under Washington DC?

Ivo: Yes my love. There is a labyrinth underneath the capital and the U.S. forces are fighting draconian forces in order to overtake the DUMBS.

Me: There are probably a lot of military forces in the white house because that's where they can get into?

Ivo: They have blocked off the area underneath the White House for access.

Me: So all the access routes into these DUMBS have been closed and so how do they get into the DUMBS then?

Ivo: There are other access routes, some in Virginia some in the northeast states, some in Georgia, others in New York state.

Me: And they can access by these means, okay. So how do these DUMBS in Washington DC, how do they compare to DUMBS around the rest of the U.S?

Ivo: They're comparable.

Me: They have large housing facilities, they're probably the same in Hollywood or Denver, so that's where they would go to live if a nuclear event ever happened. So they still have access underground so they can just make a cell phone call.

Ivo: They have cell phone towers that extend from these DUMBS.

Me: So we just think that that's our wifi network but in fact it's coming out of the DUMB, it's not part of our network. It's beneath the surface.

Ivo: You see some on mountains.

Me: Yeah! And so they they can just use their cell phone and dial in orders to tonight's editor of the CNN news or whatever. Oh my! And so I had seen at some point that some of these underground facilities had been raided and they had moved things like toilet paper that had been stored there for cataclysmic events. (I'm sensing their wifi networks are more powerful than ours, a lot more powerful).

Ivo: Yes, but they have not accessed all of them my dear. There are major centers that still need to be taken.

Me: Wow. So how extensive is this underground network under Washington, DC

Ivo: It extends past the actual boundaries of DC into the adjacent states.

Me: And again, access the movies we saw on Mars Attacks we go with the president, to underground facilities. To this underground system that they have. And we're seeing this, going "this is so funny!", so we're giving it permission to exist. And we allow it to exit. We have co-created these things. We're responsible for this stuff.

Ivo: Yes, you are.

Me: Many of us when we were watching these movies, we didn't realize how tricked we were. It seems to me that there aren't enough military forces to do all the jobs that are required.

Ivo: They are calling in the reserves.

Me: I'm thinking that this base underneath Washington is linked to bases underneath NYC.

Ivo: They are.

Me: Interesting. So it's even safe for them to travel, despite the rioting. All they have to do is go underground from their particular location. All they have to do is take a train underground and go to a safer location. So if the Galactics are storming a base, if they can manage to get out....

Ivo: We like to surround the base first.

Me: Cut all the entrance ways off.

Ivo: It is easy to access the bases from where we are.

Me: You just go into the tunnels and blow up the tunnels.

Ivo: Yes we can do that and we have.

Me: And then that way there's no traffic under that base and if you block all the tunnels, those people are trapped. If they go out the top, there are military waiting for them.

I understand that you still need earthlings to do part of the work because we have the frequency to get into the tunnels.

Ivo: We work with Terrans to take these bases. The Resistance has worked with us on this for many years before the militaries began working with us. (Also long before it was announced to us here on the surface!)

Me: And once they're arrested they're either shot on site or taken for debriefing or a holding cell to await galactic trial, to see what their dispensation is going to be. How many light forces are involved in taking these bases right now?

Ivo: Millions, my dear. It's also been ongoing for many years.

There are many ETS on your planet, both positive and negative.

Me: Okay thank you Ivo.

• Soren of the Pleiadian Delta Forces Storm Update June 28, 2020

Me: Hi Soren, can I have a summary of what's going on now? Anything interesting for us to know here down on the surface?

Soren: It's always interesting, Sharon.

Me: You have to understand that the reports we get are so watered down that one report might seem like another report because details were left out that we're not supposed to know of right now. So when we see reports from our citizen journalists, channelers, etc. they seem to leave out a lot of detail, and that's by design, I understand. We're only supposed to know so much.

Probably because we're creators and we could take many things the wrong way.

Soren: I understand.

Me: Plus the fact there's so much going on that we can only cover it in generalizations.

Soren: Yes. What would you like to discuss then?

Me: How about Commander Plaren Teah's raids out in the Amazon jungle? What happened there? Ivo said that they got underground this week, and that they've been trying to get into that labyrinth for a long time. I haven't spoken to Commander Plaren Teah yet so I thought I'd ask you.

Soren: Not that I was there, I wasn't, but let me see.

Me: I sense they're doing things in that labyrinth of bases that are a threat to the universe.

Soren: Well, yes, that's what they're after.

Me: LOL Yeah.

Soren: Okay. They have technology that seeks to split the atom into smaller and smaller units. You understand there are smaller units with quarks, neutrinos and other particles and this process that they are undertaking is called nuclear fission. Now you have already split the atom long ago and so have the dark forces that live on your planet because that's where your scientists learned to do so: they got the information from negative ETs. However their agenda is always negative and in this case it is negative as well. When they point their beams out into the galaxy, they are attempting to change the basis of life into a system that works for them, but not for humans and other oxygen breathers. They're attempting to change it to a system based on methane.

Me: How would they do that by splitting atoms? Not that I'm a scientist.

Soren: Yes, it has to do with changing the chemical composition by injecting factors that skew the composition of the atom. They believe they can do it and they have created patches out in the galaxy that are uninhabitable for humans because of this technology.

Me: They're also trying to do this with earth, aren't they?

Soren: Unfortunately, yes. This is why you've had so many nuclear "accidents" with your energy production facilities. They're trying to change the composition of the ecology so they can live here because many of them prefer methane to breathing oxygen.

Me: How do they live here then?

Soren: They've adapted but there are others of them in far away zones who are waiting for earth to become inhabitable for them with a predominantly methane-based atmosphere, and then they'll come to live on the planet as well. It's a nefarious agenda that your people are highly unaware of. But they believe themselves to be so beyond our capabilities that they can change the ecology of a planet created by God. They have invaded and now they're trying to change the context in which we live.

Me: Yep. So how have they adapted to breathing oxygen instead of methane? I can't imagine me trying to be able to breathe anything but oxygen, having said that I'm breathing in mercury, aluminum, and strontium every day in chemtrails.

Soren: That's why they use human embryos to create hybrids. The way to overtake a planet is to breed with the native population to assume some of their traits and it's a question of changing the DNA to reflect oxygen breathing rather than methane breathing. I make it sound simple, it's not an easy process and so I can understand when you say your people get a simplified, watered down version of events, you do. I'm not able to tell you, obviously, how to convert DNA. Your scientists do enough of this already, and they're doing it as non-reverent beings of lower consciousness. Always a bad mix. Always. So for this reason, sometimes you don't get the details. We're not able to tell you.

Me: True. So we're attacking the base so that we can stop this process of changing the galaxy?

Soren: That's one reason. There are other reasons. We need to break the chain they've built up around the world. Until we can take over parts of it, they will be able to stay strong. We have to keep breaking into their chain and cut them off from each other.

Me: Yes. Makes sense. Then there are the people living in the bases who have never had any other life. Very sad.

Soren: It is. So many require healing that our facilities are overwhelmed. Many don't make it.

Me: Okay. So another thing the light forces are doing are activating dormant vortices to change them to the positive polarity, and changing other vortices from masculine to feminine polarity.

Soren: We are also changing the polarity of vortices from negative to positive polarity. Some vortices are a combination of both masculine and feminine energies.

Me: Where would you be doing this right now, for example?

Soren: (laughing) Rome.

Me: Ah yes, the Vatican. Soren, can you describe the effect that reversing or opening a vortex would have on the people of earth?

Soren: It depends on how strong the vortex is, but they tend to be regional. So you might see regions of your world waking up and being cut off from mind control. For example, as we're working on the vortex over the Vatican, which is a strong one, the people of Italy start to wake up and realize their Light. Then the corona virus was let out in Italy so that the polarity of the people would return to fear again instead of anger at being suppressed for so long.

Me: That makes sense. But that's not to say all hard hit areas were reversals?

Soren: No, not all of them. Some are political victims, like California as it was hard hit by the virus. The Middle East is a huge polar area and we're still trying to overtake it.

Me: I hear Turkey is advancing on Middle Eastern countries, just like they need another occupation.

Soren: The Middle East is a feminine area, yes, and they've been working hard to change the polarity for a long time. There is a large star gate there that would make travel for them convenient and there's been a lot of fighting over it. The United States has been trying to keep it for the Light, for a while now.

Me: Under Obama?

Soren: Sharon, understand that not all military leaders follow their presidents' instructions.

Me: Oh, maybe like that Mike Flynn general who was just tried. I don't know what he did but it seems the deep state was pretty pissed with him. Wonder if he served in the Middle East?

Interesting. I don't know his story.

Soren: They militaries have been turning against their rulers, not following orders for a while now. That's why you have veterans now who have been speaking up - because while they served they were told the truth. There's also the secret militaries who work strictly on an exo-political level that many don't know of.

Soren: As for the Middle East, it is a highly feminized area and there are very high frequency women in that area, serving to hold the light. They are taking it on the nose, there's so much oppression there, and these women need support from the rest of your world. No woman would choose to be born into a war zone when the goal is to masculinize the area without being of high light. They're light holders but they've been doing a great job in holding the designation until such time we can overtake that portal. You don't understand what people on your planet are doing until you have the whole story. You probably don't even understand what you're doing until you make soul contact and have it explained to you. Nobody on your earth now is there for the sake of just being there - everyone is playing a role in this drama.

Ashtar: For example.

You also noticed that after a few days of extreme heat that the "Global Warming" headlines started again. People have to realize how manipulated they are. First of all, the Deep State controls the weather and they can make it as hot or as cold as they like; and then they produce the headlines to get people panicking. That's the last thing you need to do. Don't panic.

The other thing that everyone has to realize is what they think is only part of the truth. Even for those who we have informed, the keyboard warriors, the Anons, only know part of the truth.

There is more going on in the background and it tends to be revealed when either the deep state forces our hand, or we need to release the information to you so that you will hold that idea in your minds. Then you'll help us create that timeline. That's how it work

4. COVID-19 - Project Rainbow Moonlight; 1= A 9= I or A.I. Project Rainbow Moonlight. Its name was based on the fourth phase of water in our body and the moon sending the signal to create that fourth phase hologram. COVID-19 was created by Umbrella Corporation in another parallel universe and under the code name Project Rainbow Moonlight Covid-19.

The virus is extraterrestrial in origin and experimented upon by Umbrella Corporation who programmed it and sent it to our reality via quantum tunnel technology to D.O.D. DARPA biological warfare department and nanotechnology fabrication department. ET and Umbrella worked together to hybridize COVID with BSD 165 which was brought back by the Nazi from Brazil in the 50's. BSD 165 F is a dangerous mixture of highly poisonous snakes; the mixture can mutate very fast. The particles are very small and can pass through water filtration.

DARPA worked in conjunction with various think tanks including the Bill and Melinda Gates Foundation, Pirbright Institute (Pirbright institute owned by [QenetiQ](#), owned by the UK crown), CCP, 5th Reich Nazis, and Illuminati think tanks. DARPA \$4 billion budget is closer to \$20 Billion. The release was known as Operation [Lusterkill](#) and was managed by super computers within DARPA's Project [Cornus](#). Bavarian Lodge illuminati claimed the virus was designed to kill 5 billion people.

Timothy Mellon, top donor to Trump super PAC, used racial stereotypes to describe African Americans in his autobiography

IBM Security helps you secure your data with your IBM Security. Learn how. IBM Security

My uncle Tim.

The top donor supporting President Trump's reelection and GOP congressional lawmakers is a reclusive heir to the wealthy Mellon family fortune who used racial stereotypes to describe African Americans in a self-published autobiography.

Timothy Mellon, the 77-year-old founder of a rail and freight company, who poured \$30 million into three GOP super PACs in five months, wrote that black people were "even more belligerent" after the expansion of social programs in the 1960s and 1970s and that Americans who rely on government assistance were "slaves of a new Master, Uncle Sam."

In a self-published 2015 autobiography, Mellon called social safety net programs "Slavery Redux," adding: "For delivering their votes in the Federal Elections, they are awarded with yet more and more freebies: food stamps, cell phones, WIC payments, Obamacare, and on, and on, and on. The largess is funded by the hardworking folks, fewer and fewer in number, who are too honest or too proud to allow themselves to sink into this morass."

- US Army LRAD. (See: Hypersound).

Protests in Ferguson, Missouri have reached a terrifying fever pitch, and the *ludicrously* armed Ferguson Police Department is bringing all its crowd-control weapons to bear, tear gas, stun

grenades, rubber bullets, you name it. One of the more controversial of those is the LRAD Sound Cannon. So what's the harm in a little noise? Well, a lot, actually.

The LRAD Sound Cannon is an acoustic weapon and communication device...

Developed by the LRAD corporation to broadcast messages and pain-inducing "deterrent" tones over long distances, LRAD devices come in various iterations that produce varying degrees of sound. They can be mounted to a vehicle or handheld. The device produces a sound that can be directed in a beam up to 30-degree wide, and the military-grade LRAD 2000X can transmit voice commands at up to 162dB up to 5.5 miles away.

...that blasts "non-lethal" sound waves...

Ambassador [Tina Kaidanow](#), senior adviser for international cooperation, has left the Pentagon, the Department of Defense confirmed to [Defense News](#) Wednesday.

Why it matters: She's the fifth top official in seven days to exit or announce their departure from the Pentagon, according to Defense News and [The Hill](#).

The big picture: Per the two news outlets, Kaidanow left her role on Dec. 16. It was announced on Dec. 12 that [Randall Schriver](#), the top Asia policy official, would leave his position soon. A day later, Jimmy Stewart, the acting undersecretary of defense for personnel and readiness, [said](#) he was retiring.

The United States is now involved in a race war, following on the heels of the Covid 19 pandemic, which did not create the fear and separation that the Deep State was hoping for. So they heated up the situation by stoking fear as much as possible, then threw a match on it to light a new fire: racial tension.

We saw many doctors emerge to protest the way that the virus was dealt with, and many pundits share posts of experiences with old folks homes admissions not being screened, and then of course social media began censoring their voices (And many Youtube whistleblowers), so Donald Trump changed the laws forbidding them to do so. He's watching now. If the censorship continues, he will take other measures and this may include closing Twitter and Facebook, even Youtube, those who cancel will be taken out of business.

The Deep State is manipulating the people, the people are responding by telling the *Truth*, the Deep State is then censoring them, and then Trump legislates new laws forbidding them to do so. All the meanwhile, the Deep State is using the media to take shots at Trump, claiming him to be incompetent, uncaring, a buffoon, etc. and he is coming back to use the legal system against them. So they change tactics and now you have a race war that is showing in other parts of the world.

You see there are others who are hearing the alternative news and stop the rioting before it begins. This is interesting to watch. There are people on the streets, expressing their dislike for what is going on, but refusing to riot and throw bricks because they know the bricks are being planted by the Deep State through George Soros' Antifa and certain police units to create rioting and war.

Hold your highest vibration and see the good coming out of this for everyone.
Everyone is learning and evolving at their own pace. People are waking up.

The next thing coming is the exposure of pedophilia rings in the media.

This is what the Deep State fears: That they will be revealed for being the “Satanists” that they are. Satanic Ritual Abuse. Murder. Torture. It will be revealed that your children are what they are after.

This is an important lesson to all: you are free. The only reason you feel imprisoned is because you agreed to their rules. They own nothing without your consent. Do not give it to them. Move away from the Matrix. Live in a higher vibration. Continue to help to open the eyes of the sleeping. There is nothing to fear but fear itself.

People are stepping forward to raise the alarm now, so that the sleeping upon your world can awaken. All is in place now for your new world to begin. It is a question of releasing the grip the old world has on your minds. They are being shown now how controlling your governments are. They are revolting against this control, either in mind or in mind and body, and both of these are fine. Awareness is what we're seeking. We cannot implement this new system if your people are hanging on to the old one.

Everything is set to go. It is changing of the minds to a majority of 50 percent that is necessary. Get out and make as much noise as you can. Be seen. Be heard. Get the message out and touch others who are currently asleep.

As for your news media, this is the challenge. Many of you have walked away from the main stream media and it is up to many more to follow you. Shutting off facets of your old world does not change the loyalty to those still beholden to it; it simply would make them suspicious of our motives.

People must realize that the new governments and policies to be put into place will liberate them. We must implement this new system as a system of solutions to the current problems caused by your deep state. It will go piece-meal.

Many of you have no idea of the unique role you are playing to reconstitute the earth as a knowledge bank, to restore her to the wonderful realm of perfection that she once was.

- The relationship between **adrenalin and fear** is that when you are stressed out, you create adrenalin. When you fear, you create fear-based energies, which is loosh. This is why your western societies are run on stress. Because the fear that you are producing creates loosh for the dark entities who are controlling your world, and when you are young and traumatized, you learn to respond to everything as if it is something to fear.

What happens as you age is your adrenals begin to fail because they have been overproducing adrenalin all your life, and so you seek reactions within yourself that create an adrenalin response

in order to feel energetic. Some are into extreme sports, some are **into large amounts of sugar** which includes **alcohol**, and others fight and argue all the time.

This is because you seek to raise your adrenalin levels because your adrenals are burning out. You have been living on large amounts of adrenalin all your lives, which have caused stress and unhappiness.

And these large amounts of fear you have used to create the adrenal reactions, has been utilized by your demonic attachments as food, or in other words, loosh.

In order for your adrenals to recover, you must calm down and stop utilizing whatever you are using to create extreme reactions within yourselves. Meditation is also helpful as it helps you to activate the parasympathetic nervous system, which creates an anti-stress or a relaxation response within you.

The reason you are not a relaxed society is because you seek more adrenalin. This adrenalin then is only siphoned off by your attachments, and then you will go on to seek another stressful situation to re-create this response or indulge in more sugar. All you are doing is feeding your attachments and wearing out your body.

In the same way that these demonic attachments feed off your loosh, they also feed off the adrenalin of youngsters to maintain their physical bodies because their physical bodies do not run like the body of a human with a soul. They do not create adrenalin. So they utilize it to help them maintain vibrancy in your world. This is part of the satanic rituals they have been engaging in - it helps them to appear human.

For those in the know, it is best to walk away from people who will not change from this stress response lifestyle as they are sure to involve you in it. Sharon has. She will not engage people who continue to seek to create stress as a reaction to prompting from their demonic attachments, and I suggest you do as well. Seek peace because that is the basis of life for the human. Your environment now is artificially created and artificially maintained to support the needs of unseen attached “demonics.” That is the entire story of your lives right now.

If you should feel triggered or feel you need to respond in stress, remember you will be producing adrenalin and **this adrenalin will attract feeders** who will continue to prompt you to create adrenalin. A peaceful response to all situations must be sought out. I wish to point out that children are being taken because they are good producers of adrenalin for these demonics, and this feeds their physical bodies.

You are feeding their non-physical bodies by continuing to stress yourselves out. Mind control programming is entirely about prompting you to create these adrenal reactions, and your western societies are set up for the same reason. Why do you think you earn so little? So you can stress out and create adrenalin, that is why. Why do you think your foods are so full of sugar? So you can overreact and create stress, so the sugar will rev up your adrenals. When your adrenals are revved up, these “demonics” can then feed themselves. (Regressive ETs).

WHEN ANOTHER PERSON ANGERS YOU, YOU MUST LOOK AT THEM AS A TEACHER. THEY ARE TEACHING YOU WHAT YOU NEED TO LEARN TO MASTER IN ORDER TO REACH A STATE OF UNCONDITIONAL LOVE. YES, THEY ARE HELPING TO TAKE THE CONDITIONS AWAY TO YOUR ULTIMATE GOAL OF BLISS AND HAPPINESS.

Ivo: I said that Trump will get a second term in office, and during his tenure he will bring America to NESARA standard. Once NESARA is implemented, it is mandatory that an election be called within a few months, and at this time John F. Kennedy Jr. will step up to run for President of the United States, and he will win.

We told you that JFK Jr. is still alive and he's working with the Alliance in some undisclosed location or locations. They're grooming him to be the first president of the NESARA compliant United States.

Ivo: I am telling you the future. The political system will be re-opened to any candidate who wants to run, and debates will be conducted on that basis. The two party system will be abolished. There will be many applicants for the position, but Kennedy will take it.

Storm Update - Soren of Pleiadian Delta Forces

Soren: Antarctica is full of your world's history. There are ancient ruins there, some of which are still operational, that are underground. There are buried ruins, there are computerized systems still functional, there are even giants sleeping in stasis....well, they've been woken up.

Sharon: Now, are there any hotspots where there is more fighting around? Ivo said that he's still fighting over Area 51 although the Light has it. He says the cabal forces or dark military is still trying to get it back.

Soren: Yes, they don't like losing. LOL

So when we gain Antarctica, we can take away all the mind control, release the false image of what your earth looks like to you now and return it to the natural Lemurian timelines. Only powerful earthlings are populating the Lemurian timelines and so are the Agarthans, of course. Many of you are jumping back and forth between the real and the fake timelines as your frequencies change.

Soren: Its hard for many human soldiers to take, but they're walking into completely alien environments that they had no idea existed, and doing battle with 8 foot tall reptilians, mantises and giant spiders.

Sharon: Sounds like more PTSD.

Soren: We're helping to heal them. Many of them have been taken out of service and sent for healing because they never expected to see any of this. Some of these troops were already aware and take it more with a grain of salt, but others are scared to death. We have to watch them and make sure they don't compromise the fight. It's not uncommon for a Pleiadian to step in to a

human body and work with the human to help them through a battle. They've got munitions they have never used nor ever thought they'd ever have to use.

The Alliance forces do their work according to their own training. They stick to what they've been told to do, as any militia would. We are there looking for beings they're not aware of and we know who they're aware of.

Your people are obliged to do fifty percent. It's your planet and your liberation. The GFL doesn't do rescues, they aid the planetary forces in achieving their goals. This is your battle, your war. Because it has a galactic impact, we're allowed to work with you.

Sharon: Okay, so I'm in the bases as an earthling light warrior. What am I doing?

Soren: You're using your telepathic powers, your telekinetic powers, and you're using energy discharges from hands, eyes and feet in order to overwhelm enemy forces and allow Alliance soldiers to get by them and rescue children, and others trapped in the bases. While the dark forces are incapacitated, you are debriefing them and asking if they wish to stand trial or help with the Light liberation of earth. They are being rounded up and put on jailing ships to be taken to a planet where they are jailed, sometimes it's the moon, sometimes it's one of the moons of other planets in your system, and in the case of key persons, they may be taken to the Pleiades for debriefing.

You work in the States. Key locations are being taken down first, later on others. Canada is not as key as the States is and the States must be overtaken first by its own military. There are troops in Canada as well, but there aren't as many bases in Canada. The U.S. is a key location.

Me: I see. When will we see a change of government in Canada? I want the government to change to a non-globalist government.

US Navy Patent for Nuclear Fusion Reactor Supports claims of Mile-Long Space Carriers

OCTOBER 12, 2019 // FEATURED, SCIENCE AND TECHNOLOGY

The US Navy has authorized the publication of a patent for a nuclear fusion reactor that can both generate enormous quantities of power and yet be small enough to be fitted on mobile platforms, including spacecraft. The patent's publication supports Whistleblower/Insider claims of mile (1.6 kilometers) long space carriers that have been secretly built and deployed by the Navy since the late 1970s and early 1980s.

The patent application for a "Plasma Compression Fusion Device" was just published on September 26 after being lodged on behalf of the Secretary of the Navy back on March 22, 2019. The inventor is Dr. Salvator Pais, who

One program that is now operational inside the Deep-Black part of the Secret Shadow Government is an experiment that attempts to hybridize humans with a third helix, transforming all their genes to triple helix from double helix. This is called the Triple Helix Super-Soldier program.

Humans and animals have a third helix with their normal two in cheek cells, some skin cells, and cells that heal rapidly. In amphibians and snakes, the third strand is present and results in severed limbs re-growing and operating normally.

It is a fact that Super Soldier programs exist. I have seen the actual physical evidence myself; and, at the least, these folks have been selectively bred for physical strength, coordination and very high IQs. Whether or not they have been gene-spliced is still an open question, but it wouldn't be surprising.

Super Soldiers have been enhanced cognitively through various proprietary nutrients, vitamins and secret injections, which have raised their IQs to over 200.

The plan is to insert a specially engineered fast-growth third helix (strand) into the soldier's DNA to make them rapidly self-healing for almost any wound. It is unknown if this research has borne fruit or not.

If they do succeed, my guess is that it will turn out to be a nightmare, like the BZ experiment in special ops in Vietnam where soldiers turned on each other and murdered each other because they became psychotically aggressive. Some believe that this experiment formed the basis for the movie, Jacob's Ladder.

Another Deep-Black Super-Soldier development program was supposed to have involved insertion of ape genes in the muscles to provide vastly increased strength and stamina for the foot soldier. This could be done during the embryo phase or as an adult. It is unknown if this program was deployed or not – and if it was, whether or not it was successful. China is believed to be doing research on this right now.

An essential goal of these Super-Soldier programs has allegedly been to use various means to hive these organisms into one central consciousness – at first by brain chips in constant communication with the Internet and satellite systems, and then by using ingestion of migrating nano-particles that can be flashed. The final goal is allegedly to genetically engineer super-soldiers with instinctively “hived brains” that actualize certain psi-power and secret Black Arts occult means.

All synthetic attempts, including the massive ones going on now to create an A.I.-based one, will fail. Certain A.I. gurus who run big Internet services and search-engines truly believe that they can create and impart a human soul to a large quantum computer, and then a demon or

Lucifer will inhabit it and eventually take over all reality through this AI system. Some would say this is insane, sociopathic thinking, and would likely lead to a great deal of inhuman acts in the future, unless stopped.

These same AI gurus plan to create synthetic AI-operated policemen, soldiers and weapons of war. This is likely to lead to major wars fought by robots of all sizes. One inhuman plan is to power the robotic tanks by conversion of the dead soldiers' bodies to electricity to power the tank.

How The Obama Administration Weaponized Surveillance Laws To Target Trump

Federal surveillance laws put in place after Nixon were supposed to protect U.S. citizens. The Obama administration used them to spy on political opponents.

I am Mira of the Pleiadian High Council. I come to you today, lovely beings, to respond to a question asked of me, "How are the Pleadians involved in the Storm, and liberation of Planet Earth in general?"

I will gladly expand upon what knowledge you surely have on this topic by now.

The Pleadians have been your overseers for this era as you are most like us in this fifth density and lower. Our expression is very similar to yours. Our DNA is most like each others. We are the closest of cousins, as you would say.

For this reason, we see you as our brethren, befallen upon by a dark scourge. Through the era, your people have continuously incarnated repeatedly into lesser circumstances, but have managed to hold your timeline against a collective implosion for 26,000 years. Yes, the Pleadians were here to help you personally, privately and collectively in this endeavour, helping and guiding your world leaders, helping and guiding key people in your world, and helping and guiding the normal person.

One such leader that we worked with was Diana, Princess of Wales. Although her task didn't see completion, as she was indeed the one who was to tell your world of the dark ones leading it, she was murdered before she could reveal all she needed to, she did however, show you what true royalty was, what a true leader was - a woman who cared for so many and whose Light shone brightly to the masses. She left her sire, William, to again pass on her DNA to his children, who will make amends for the way the dynasty has treated the people. All will be shown to you, and amends will be made. Diana's legacy has not ended yet, by far not.

We brought you David Icke as well, who has opened the eyes of so many who didn't want to see. And of those who were more than ready to hear what he has to say. He continues to grow in popularity.

There are the everyday heroes on earth that we support, protect and nurture in their work. Julian Assange is also one of the Pleadian heroes. Phil Schneider and John Lennon as well. They all had their message and we worked with them to ensure that their celebrity was not lost on inconsequential matters.

Now we are in the Underground Bases, dismantling technology, working with your armed forces. We have some of the children who were in these bases and this has been going on for a while, many years, healing them and helping them to recover from their trauma. They live with us in the Pleiades; they're not to be found on earth but may one day be returned if they wish.

Our ships surround your planet. Yes, the Galactic Ships but we have our own fleet of scientists, technicians, healers and our own light workers who help guide and arrange the energies. We direct these to the correct spots on your planet in order to help awaken people in these sectors, and to change around the negative polarities to positive.

THE 13TH ILLUMINATI BLOODLINE. Merovingian.

Negative Annunaki.

The *13th Illuminati Bloodline* is where the Anti-Christ will come from. This bloodline believes that it has both the *Holy Blood of Jesus* and the blood (or seed) of *Satan* in its bloodline. In my *Be Wise As Serpents* book, I make reference to this bloodline but I never really took the time to explain it completely. In fact I don't fully understand this bloodline myself. I encourage those who want to learn more about this bloodline to study the following books:

- Holy Blood, Holy Grail by Lincoln, Leigh & Balgent
- The Messianic Legacy
- The Temple & the Lodge
- Crusaders of the Grail by J.R. Church
- The Anti-Christ King--Juan Carlos by Dr. Charles R. Taylor

This bloodline is so extensive in its many branches that its membership takes in many of the Presidents of the United States, including **George Bush** and **George Washington. Brit Royals too.** The reason that I gave the genealogies of some of the Mormon Presidents to people back in 1991 in my *Be Wise As Serpents* book is that all of the Mormon Presidents in history, whether RLDS or LDS, trace their blood back to this 13th bloodline. Within the Illuminati rituals, the emphasis of the 13th bloodline is that they are the seed of Satan. As their secret story goes, they

are the direct descendents of Jesus' spiritual brother Lucifer. Since the Freeman family and the Rothschild family have members who are also in the 13th bloodline, It is unclear to me how interwoven the "seed of Satan" is.

• IVO. Deep State Psychological Game May 12, 2020

I am Ashtar Sheran, with a message for those on Planet Eden.
I was asked as to what is the game going on on your planet? A game, a deadly game, of chess

where the pawns are the people who sit out front being preyed upon by their rulers in the back row. The knights and the queens, the rooks and the bishops, hiding behind the row of their pawns, making their moves to eliminate as many of you as possible, double agents posing as your own team.

This game of chess, however, is multi-sided. There are many teams playing the game - the Rothschild team, the Rockefeller team, the dragon team of China, the drug cartel teams of South America and Asia, many many players.

As your leaders prey upon you, they also fight off opposing teams.

If you'll notice, the one team that has fallen silent right now is the Vatican.

Each knight, each rook, each Queen, each bishop.... will step out, one at a time, and will go down. That is the game that's being played. Their last hurrah, the last hurrah of Bill Gates before he was arrested, the last hurrah of Anthony Fauci before he was exposed, the last hurrah of Obama is now on the table. You'll see this going on. One by one the pieces will fall and the white King will be left standing. And we know who that is.

Your world is embroiled in a psychological manipulation of your loyalties and for many, the game is wearing thin. People are standing up for their rights, they are refusing to surrender any more liberties and are organizing en masse to stand up to those rulers who would seek to dominate and oppress them entirely. They're not taking it anymore.

Enough information has entered your news stream, not the MSM because that is largely owned by the deep state rulers, but the internet. The internet has changed the playing field entirely. Everyone is able to opine, everyone is able to spread news and defy the controllers of your planet. When, in fact, your internet goes silent, it will be to erase any trace of the Deep State from its files. This will be a huge undertaking and will require time. When this is to happen is, most likely, this year.

Understand that when they are erased from the internet, that all trace of them and their domination will be erased from public control. All will be set to neutral. Benevolence will be the word of the day.

Your people are being shown, because it is necessary. Many sat living their lives in a slumber of complacency. Now they are waking up because the level of control that is being increased in their lives is ludicrous and they are beginning to object. So people are asking if it is really necessary to take the precautions that are being demanded of them, and the answer is no. There is no need to separate the people and divide them from their loved ones, keep them from their jobs, and to keep the children from school. But they had to be shown.

The Deep State will no longer be able to impose control over you without opposition from the people because they have been exposed, and will continue to be exposed, as being the self serving frauds that they are. The people were settled into their lives, for better or for worse, and are not about to have everything taken from them. Obviously, many are suffering negative reactions either outwardly or privately within themselves, they are being moved away from what they felt was right, what they felt was normal, and what they did to find a sense of community, and purpose. This has all been taken away from so many people that they are rebelling. And this was the plan. When the people of earth stand up and say, "We do not agree to this!" they are in fact retracting their energy from the old governmental, business and banking systems that used to control them. They are creating their own liberty, finding their own solutions, rejecting the main stream narrative, and taking their freedom back. Rebellion at a private and public level was necessary for the Deep State to be found out.

People now understand that something is wrong. And they can't ignore it anymore because they

are personally affected. It was fine when everyone else had a problem, as long as their lives were intact and functioning. But now everyone is affected. There's no denying that there's a problem, and that those considered to be leaders are anything but someone they need to put their trust in. When people's mobility is affected, and their finances are affected, they take notice. Their livelihoods are on hold, and many are afraid of what the future will bring. The fact that the manipulation in your media is relentless only increases their distrust of your leaders.

Yes, not all are on board. Some still believe in what they are told. I'm not saying that it's over yet, not by far. Their attempts to control you will become ridiculous, and this is because they are desperate people. They'll attempt to foist more and more upon you while their main henchmen face public exposure and disgrace. More and more people will be made uncomfortable in the ensuing months, in order that it be revealed to all of you what is going on. At some point, the majority will accept they've been lied to. More and more are opening their eyes and saying, "No! We do not consent to this."

As you experience shortages, solutions will be sought out. People are changing their shopping habits, helping out neighbors in need, farmers are being sought out to provide where the food stores no longer can.

Your infrastructure is crumbling. It was built on lies and so now it will see its end.

Be prepared to endure a breakdown of your economic systems, a breakdown of your healthcare systems, a breakdown of your consumer systems, and a breakdown of your political systems as the dark is replaced with the Light. Understand more viral scares could also be on the horizon as the desperados seek to regain control over you.

Your religious systems will also experience a tumultuous awakening.

What has been started now cannot be stopped.

This is a time of great turmoil for the people of earth - emotional, intellectual and physical - you are restricted beyond your wildest nightmare and people are becoming restless. Had this not happened, so many more would not have woken up. You are finding common ground and grouping together through social media, staging protests and defying the new "suggestions".

They can't control you if you don't surrender to them. The truth is coming out and it's a joy to watch. This is what your world needs and these are blessed times indeed.

We are here with you. Always.

Why send a fleet to eradicate a RAF weather station? It must have been super important base of some kind.

Operation Zitronella (Operation Lemon Flavour), also known as *Unternehmen Sizilien* (Sicily), was an eight-hour German raid on Spitzbergen, in the Svalbard Archipelago, on 8 September 1943. The battleships *Tirpitz* (in its only offensive action) and *Scharnhorst*, plus nine destroyers, sailed to the archipelago, bombarded settlements in Isfjorden and covered a landing party. Six Norwegians were killed and 31 were taken prisoner; one German died of wounds and fifteen were wounded.

Information released in the Justice Department's motion to dismiss the case it brought against Lt. Gen. Michael Flynn confirms the significance of a January 5, 2017, meeting at the Obama White House. It was at this meeting that Obama gave guidance to key officials who would be tasked with protecting his administration's utilization of secretly funded Clinton campaign research, which alleged Trump was involved in a treasonous plot to collude with Russia, from being discovered or stopped by the incoming administration.

"President Obama said he wants to be sure that, as we engage with the incoming team, we are mindful to ascertain if there is any reason that we cannot share information fully as it relates to Russia," National Security Advisor Susan Rice wrote in an unusual email to herself about the meeting that was also attended by Deputy Attorney General Sally Yates, FBI Director James Comey, and Vice President Joe Biden.

It was this meeting that Rice memorialized in a bizarre inauguration-day email to herself that claimed Obama told the gathered to do everything "by the book." But Rice also noted in her email that the key point of discussion in that meeting was whether and how to withhold national security information, likely including details of the investigation into Trump himself, from the incoming Trump national security team.

One of the mysteries surrounding the original NY Times article that revealed AATIP to the world, [Glowing Auras and 'Black Money': The Pentagon's Mysterious U.F.O. The truth is out there, but is it a distraction? Pentagon UFO disclosure timing arouses suspicion as net debates if #aliensarereal

The Pentagon's decision to officially declassify three 'UFO' videos that have been circulating for years has triggered feverish speculation about what the famously secretive department is trying to distract Americans from.

Three short videos depicting US Navy planes' encounters with "*unidentified aerial phenomena*" (UAPs) – more commonly called UFOs – were officially declassified by the Pentagon on Monday, thrilling alien enthusiasts and igniting a firestorm of speculation on social media.

- **April 29**

**Declassified:
Pentagon
officially releases
3 UFO VIDEOS to
'clear
misconceptions'**

Even though the clips have been circulating ever since they were leaked online between December 2017 and March 2018, the Pentagon putting its official stamp on the unusual films – supposedly to “clear up any misconceptions by the public” – confirmed their authenticity.

However, not all of the speculation had to do with the type of ‘little green men’ that might be piloting the objects. Even as hashtags like #aliensarereal and #ufo2020 dominated social media, many commenters were skeptical as to why the Defense Department had selected this particular moment in history to officially ‘release’ the videos. With the world in the grips of both a pandemic and an unprecedented economic depression – and with anger rising at government responses to both – the timing raised more than a few eyebrows.

Given the Pentagon’s facility for ‘information warfare’, many assumed the release was an effort to shift the discourse to ‘aliens’ (in which case, mission accomplished!).

Adama of Telos: All life needs peace for evolution to take place. Without peace, species just struggle for survival, and never have “time” to add to the strength and wisdom that they have accumulated.

Me: I read this in a book written about Telos and I'd like you to expand on this please, Adama. First of all, maybe by telling us when the Agarthans figured this out?

Adama: Of course, Sharon. Thank you for asking me. As you may know the Agarthans, which includes the Telosians, were initially Lemurians, who came to your planet from other races in the galaxy.

Me: Which races?

Adama: The Lyrans were one race, Sirians were another, even some from Orion but we were particularly species who were of higher feminine capacity than was prevalent on our planet at the time. We were a peaceful race, and yet were overcome by the dark masculine Atlanteans. We fled into the inner earth in order to resume our non-warring way of life there, and although we have ventured out to the outer earth from time to time, we remain inside the planet as a means of protecting ourselves from your warring ways.

Me: Do you ever plan to merge with our people again?

Adama: In fact we will. We are all One: The earthling. And our karma is interlinked. As we all live upon this planet, it is our collective job to create balance.

Me: Hmm. So us outsiders haven't been doing our job well.

Adama: No, you haven't, so what in fact we're to do is to teach you in the future. Yes, you'll have help from otherworldly species but in your infancy the Telosians will seem as alien to you as these other non-warring species will.

As for the statement I made, I made it because it's the truth. War is about destruction and death. In order to evolve, one must have life, so in life there requires peace, otherwise the collective vibration will be that of survival. That is the frequency of your collective now: survival. And that's why you still war with each other, and feel that it's required.

When in fact you have your full spectrum of light frequencies back on the outer earth, you'll see more clearly what I mean, and you'll be able to comply.

It's your imbalanced frequencies that you're interacting with that has created this imbalance, and of course with the Atlanteans still upon your planet, wreaking havoc in your minds, your world is still in imbalance.

Me: Interesting. You see them as Atlanteans.

Adama: Yes, that's what we call them. You see Atlanteans as benevolent beings but in fact it was the invasion of Atlantis by warring parties from space that created the imbalance there, and all was either cognized or there was refusal to comply and many left the island before it finally sank. Atlanteans are the mixed bag as you call it. Lemurians were always peaceful, and of course the minds that prevailed at the time in Atlantis saw our way of life as being inferior so they invaded our paradise as well.

Me: I keep wondering why all these old islands are sunken?

Adama: Yes. Sadly, it is possible to sink a landmass on outer earth. There is no core that attaches to the other side of the world. Your land masses are more fragile than you believe. Again, Sharon, it has to do with balance. When one land mass sinks, another arises.

Me: Well, we've got two coming back up so that mean something is going to sink?

Adama: You will lose land in the coming years. Earth's face will change again.

Me: Why?

Adama: The water will rise. It will be displaced by the mass of the land arising. This is simply the way outer earth works. Gaia is always working to restore ideal conditions on the planet. When the land masses are too damaged, she simply shifts them so that some arise and some fall again. You're well aware there is many sunken cities beneath the ocean levels now.

Me: True.

Adama: Change is just the way the planet works.

Me: Do you have that in inner earth?

Adama: Not like this. We're not on the crust. It's more stable at the core.

Me: Interesting. So we're in a great time of change now?

Adama: Yes, the end of an age, the Age of Pisces. Now with renewed energies reaching her shores again, Gaia can resume her more natural cycles.

.....

Adama: There are many people helping their neighbours, strangers, the homeless and the sick. You see that. Either it's their job to do so, or they're doing it of free will. You'll see more and more of this. Yes, people are angry as well, but anger can be a call to action. Your governments are aware they're sitting on a hot situation right now and they're dealing with it as best they can. Unfortunately, certain parties are still allowed to make public decrees that are intended to constrain or even make sick or kill others on the surface, and these people you need to be aware of. Understand that your governments are working towards GESARA compliance and that they're aware of what's being said. They have staff reading the papers and watching the News, as well as plants in the opposition parties who report back to the councils, so appropriate action is taken as needed.

Me: Thank you Adama.

Adama: Not to worry, viewers, you will get over this. Your world will change. Waking up billions of people to the truth of their lives has to be done slowly and carefully.

.....

What is being carried out now is a very deliberate plan, that has been in the works for many many years. This Plan has progressed through many stages and prior attempts to implement it at this top level that we see today have been thwarted.

It was originally John F Kennedy's task to liberate planet Earth in the 1960s, and we know how this was thwarted - he was murdered by CIA officials who kept him from turning on the deep state and liberating America.

Me: I always wondered about Jackie Kennedy. Why did she live?

Ivo: She did not know that much, and she was easily silenced. Her son, however, was not. He was very interested in exploring his father's death and found out details through his political contacts that he was not meant to know. He has in fact faked his own death and has gone into hiding for now.

Me: Then I hear that 9/11 was a mass murder of white hats who were at the Pentagon and in Building 7 of the Trade Towers.

Ivo: This is true. In fact the St Germaine funds were due to be released at the same time, and these were stolen by the Bush Cartel. Suffice it to say we have worked on many safeguards to ensure these things, and others that we have anticipated or have seen occur through time travel to the future, will be thwarted.

Me: Curious, how did they get the St Germaine funds back?

Ivo: (smiling) They had some help. Our quantum computers can hack any financial system on earth with ease and we are in fact in control of all at this time. We can put in safeguards where necessary and add viruses too.

Me: Like the ones that stop vote tampering, for example?

Ivo: (smiling) For example. We will keep your people honest.

Me: Can you please stop whoever is tampering with my email account?

Ivo: If we deem it for the greater good, we can do so.

Me: Okay. Can we discuss the corona virus please?

Ivo: Yes, there are different strains. There is also no vaccine for this virus because there is in fact a virus that can make one sick but not any moreso than the common cold. What people need to be reminded of is that viruses have no cure. They are always allowed to run their course.

Bacterial infections have cures, your people have no cures for viral infections. With a virus, it is a question of treating symptoms and strengthening the body to isolate the virus and to fight it off.

The fact that there is no antedote for viruses should tip you off to the fact that they are in fact, not natural to your planet. As all upon your world is in balance, there is sickness on your world but there is the cure as well, provided by nature. Viruses are contrary to this fact. They are artificial.

Your medical establishment makes the money it does from you because your controllers have systematically weakened your immune systems. Had your immunity been at levels prior to the 1800's for example, there would be much less illness than you experience collectively now.

This is why viruses were created - the Spanish flu, the Black Plague, were all viral. They had to create a parasite that your bodies could not deal with without intervention. This is part of the control agenda - in controlling your bodies and creating fear which they feed off of.

What in fact must be done with viruses is that they are rounded up and contained. That is the best you can do with them now. Understand as well that if your body does develop immunity to a virus, it is in fact throwing it out of balance as viruses are not part of your inner or outer ecology.

Me: So do they have a cure for it now?

Ivo: There is no need, my love. The only cure is to strengthen the immune system. As you are now doing, bearing in mind that the immune system is part of the endocrine system, which also needs to be rebalanced in many.

Me: So the question is, "How do you break the grip of Big Pharma?"

Ivo: There are world leaders addressing this now with the white hats. In fact, you saw that Trump has dismissed the use of vaccinations for children, which is a big win for the people. This will also indicate that the terror of viral warfare will also come to an end soon.

Me: Absolutely.

Ivo: As for Big Pharma, the best way is to turn to alternative medicines, homeopathics and as I said, to strengthen the immune system. Your bodies are more resilient than you are led to believe. When you affirm that your immune system is strong, you will strengthen it. When you fret over your allergies, then you will weaken it. The body responds to what you tell it.

Me: So there are a few questions pertaining to money, like "How do you explain the economy crashing without admitting you are breaking up corporate monopolies?" and "How do you justify taking control of the economy and financial systems away from the fed?"

Ivo: Assuming that the Fed is the Federal Reserve. Yes. You build a new system and you tell people that it is a better, more fair system, that is how you do it. The dark has sold your people continually on lies that support the betterment of humanity. So why should the Light deviate from this procedure? They too, can say it is for the betterment of humanity, because in fact it is. There is no lie.

Your financial systems will become decentralized, become more simplified. There are too many hands in the pot right now with monies being allocated at all levels. There will be more federal control of monies and a simplification of the process. Of course the federal control will align with the QFS. Control of one's finances will be given back to the people.

One can simply explain the economy crashing as being a system that no longer worked. Because this is the case. It never worked for your people - only for the controllers.

At this time, Mr Trump is overseeing all and allocating the new systems be brought to creation by his ministers who are primarily white hats.

Me: What about Faucci? He's a satanist.

Ivo: Yes, he will be arrested, my love. All satanists are to be tried for crimes against humanity. He may believe himself to be safe at the moment but his time will come. (I also intuited that they're keeping Faucci in office while the Covid 19 thing is on. They're going to use him as a fall guy eventually. It' like they're setting him up somehow.)

Those in political office will be stepping down and replaced by others who will put the new plan into place. Then this will spread to other countries. These steps are only beginning to take place in Canada, for example.

Me: Yes, Fidel Castro's son, Justin, is under house arrest.

Ivo: And he has been replaced by another who will align with Light policy and GESARA law. What in fact is happening is the hard grit is being done primarily in the United States. This is the precedent. All other countries will be asked to comply. If they refuse, their governments will be voted out and a Light government, aligning with GESARA law, will be implemented. In the same way that Trump won in 2016, the procedure will work for all other countries.

Me: That's a lot of work.

Ivo: It is a large world you live in.

Me: And so the last questions are the last two points, Ivo: "How do you restrict travel to make sure they can't escape?" and "How do you accomplish all of that, without mass panic."

Ivo: Well, shall we say for starters that the CoVid 19 virus is acting as a diversion. Because it is. It diverts the attention of the world population, who are busy trying to stay healthy. Others in the know such as the red pills, truthers, light community and the anons, are of a different understanding. The virus attack of the deep state was used as a diversion by the Light. As for restricting travel, we of the Light have your planet surrounded. We guard all portals in the hopes that they do attempt escape, and then we will catch them and bring them up for galactic trial.

Me: Yeah, I think Commander Hara is down in the Caribbean watching dark portals, pretty sure he said that.

Ivo: Yes. We have a system right now that informs those who need to be informed such as the ones who are carrying the message through social media. You have also noticed the restraints put upon you on Facebook have been lifted.

Me: Yes, I have hundreds of new followers.

Ivo: And this is because the Quantum computers can put safeguards or viruses into your computers.

Me: LOL I can see Zuckerberg freaking out, wondering what's happening to his mainframe!

Ivo: He knows. They are well aware of what is happening. Their control is being taken away.

Me: So the lightworkers were complaining and you took measures. Thank you. It was frustrating thinking I was working for nothing, talking to myself day after day.

Ivo: And you still persevered.

Me: I know. I'm nuts, aren't I? LOL

Ivo: You are dedicated.

Yes, so on the questions. How do you restrict travel so that they cannot escape? For one thing, everyone on this planet is locatable by their energy signature and our computers also do this. We can track anyone we wish to as well. So can the Matrix computers and they have been tracking lightworkers. You see, my love, that you have not been harassed by men in black for years now and not shot by direct energy weaponry. This is because we have obscured your energy signature from their mainframe.

Me: LOL Thanks. They were a nuisance. Now I just need to work on these Archon visits at 4 a.m.

Ivo: Yes. They can track you as an organic.

What I will say to all who are listening is that the technological system that Bill Gates and company has worked so hard to connect you to the Matrix computer with is also their undoing. So why do we not just shut off their computer, you ask? Because your reality would stop and this would affect your minds greatly. You need to stop fueling their computer, giving it energy and giving them energy, by believing in the system. Yes, their computer works on energy - your energy. You are also in an ascension process and this process must be left in place to the best extent possible. Your people need to ascend from the low position they are currently in and starve out their computer and the artificial timelines you are living on.

Eventually your entire world will run off of the QFS - the quantum computer system that is aboard our ship. We can put in checks and balances as we have begun to already - to ensure that your world runs smoothly. This computer works in alignment with universal law and so you will be led to as well.

April 2, 2020

Ivo says that the satellites that were being used to shoot at us and cause fires are under the control of the Light. They've had to deal with as many of the deep state's/dark beings' ways of retaliating against us before launching their own final stage of the Storm now.

They're taking away their adrenochrome source - the humans who are their slaves, they're taking away their food source - same - humans, they're cutting off their inter-galactic trade supply - again, humans.

They're rounding up as many of these pedos as possible and putting them in house arrest with bracelets and guards.

They also have to deal with retaliation of the dark on other planets, like the allies of the ones who are here on earth retaliating against the GFL.

This doesn't mean there will be no retaliation - it means they've cut off as many of their options as possible.

DUMBs Update - Removal of Children from Bases

April 2, 2020

Listen, folks. Taking child hostages out of DUMBs has been going on for quite a while - years, as a matter of fact. Fighting in the bases has been going on since around 1975.

There are just more and more people becoming AWARE of it now so it's being reported but it's been going on for a long time.

You, as a lightworker, as an awake and aware lightworker, are NOT SUBJECT TO EARTH'S LAWS. And you're certainly not subject to earth's lawlessness, except in situations where your require experience to become more aware. You have to understand that this was because you needed to understand, or because you needed to transmute the negativity in that part of the collective.

Trust me, you are being put into situations that you need to use to learn. Anything not of value to you, like being held down for vaccination, will not happen to you.

Yes, the FDA's drug program. Many pills are the quick and easy solution but it is no solution. Doctors have moved away from healing and have moved to bandaiding (treating symptoms) thanks to the Illuminati-owned drug companies.

Me: What about sound and light healing therapies?

Ivo: Yes, these are still in their infancy because people are only waking up to the fact that they have a soul. Sound and light are part of the light spectrum which really is erroneously labelled: it could be the "love" spectrum or the universal

energy spectrum. You know because at times you have seen beyond what your eyes are normally capable of. It is healing at a higher level, at a soul level, then working down through the energy system, the chakras. It is not as simple as flooding the chakra system with more energy although that could be a rejuvenating type of modality – it is also sending a particular part of the light spectrum through the body which would be the, technically the opposite of the particular malady. So if the malady on a scale of 1-10 is a 3 vibration, then you would send an 8 vibration through the system to heal it because obviously $3 + 5 = 8$. So the first 2.5 vibrations bring the malady to neutral and the next 2.5 vibrations bring the person back to a healthy state. No, neutral is not a healthy state. Each human has an energy signature which is positive. If you look at it on a graph, you all stand above 0 to some extent or another. The very healthy would be 9.5 so if they incurred a disease that has an energy signature that brought them to 2, then they would need a 7.5 frequency to bring them back to health. It is a question of measuring the frequency of the disease which of course, Terrans do not know how to do yet. Then applying the sound/light waves to bring about healing. (I think this description is a simplification of the actual procedure.)

We have horse DNA in us. Centaurs were a snap to create in Atlantis.

Deer, cat, wolf, monkey, bear, fish, etc. We have it all.

Borders were created originally to keep us from interbreeding.

body, so do they have DNA?

Ivo:Not physical but etheric etc. yes. They are made of energy.

Me:Okay, so what's in this light body DNA?

Ivo:Ahh, I thought you would never ask.

Me: Hey! You know me.

Ivo:Your etheric, emotional and mental light body holds your mental and emotional selves in it, but the astral and spiritual planes contain ALL physical, emotional and mental aspects of everything in it. This is why you can speak so easily to me, other ETs, your higher self, spirit guides, the higher selves of other people..... because your top 3 chakras are very functional. You can obtain any information about anything you like. You do not have to ask me, although you do.

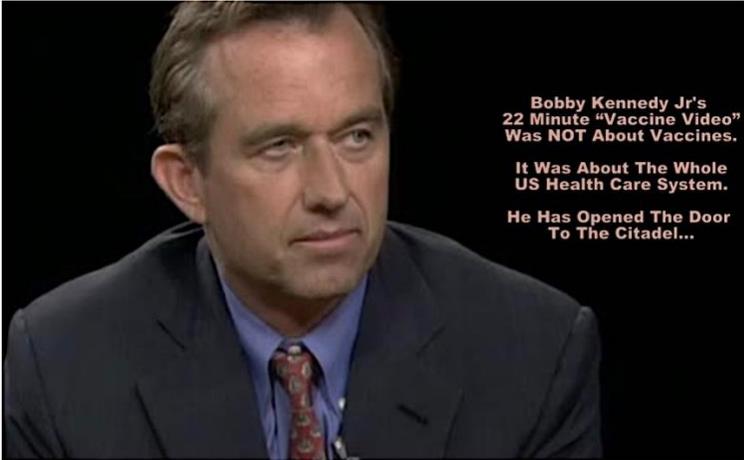

But yes, there are 5 more chakras and energy bodies outside of your body which you are attached to as well. They connect to the galaxy, the universe, other universes and the Creator itself but were you to use them right now you would be overwhelmed and would not survive. These chakras access information/energy

that in your current mental state of aggressiveness, etc. you would likely misuse. They would not mix well. Hence, mental problems, some anyway.

That is what schizophrenia is, my dear. You asked yesterday and today I will tell you: people are accessing these chakras and are driven mad. Yes, your friend, a wonderful man who knows the drugs that are given to him will only help for a while. Then he will lose his mind as his system is overwhelmed by the open chakra(s). He draws intricate images of things nobody can understand because he sees them in his mind's eye. He is accessing information from far above your reality, other dimensions. Amazingly he can bring it into the physical at such a low vibration, however it is not complete and the information surrounding these pictures is too complex to understand. But yes, all who see it sense that it is something wondrous that he is doing.

Me:And what about the voices that schizophrenics hear?

Ivo:Well, you hear me now, correct.

STORM UPDATE:

Soren of the Pleiadian Delta Forces:

Hello, Sharon, and to everyone listening. You're probably now aware that the Corona Virus is a cover for the Storm activities. Your military forces are now being utilized to carry out arrests, tracking down deep state members who have made themselves scarce.

With all of you going into seclusion with this corona virus pandemic, it gave the Illuminati time to head underground and some of them are continually on the move avoiding our forces. We'll find them though. We are astute at creating dragnets and we can see their location, if not ourselves than with the QFS computer that has tagged them all electronically via their energetic signature (same thing they do to us in the Matrix, BTW). We can find them easily with this computer; it's just that earth is such a large planet with so many places to hide.

The other reason to keep you isolated is to keep you from harm. There are possibilities of reptilians or other malevolent beings arising from inner earth to come out to look for food. We've starved them out, we have also cut off the bank accounts of the deep state, so they're becoming desperate.

Have you ever witnessed the media, Hwood, [D] party [full], [F] leaders, [F] media, etc. push so much hatred towards a sitting US President? Why are 'division' tactics necessary?

Coordinated?

Define propaganda.

Infiltration instead of invasion.

They will stop at nothing to regain power.

Q

The Great Awakening ('Freedom of Thought'), was designed and created not only as a backchannel to the public (away from the longstanding 'mind' control of the corrupt & heavily biased media) to endure future events through transparency and regeneration of individual thought (breaking the chains of 'group-think'), but, more importantly, aid in the construction of a vehicle (a 'ship') that provides the scattered ('free thinkers') with a 'starter' new social-networking platform which allows for freedom of thought, expression, and patriotism or national pride (the feeling of love, devotion and sense of attachment to a homeland and alliance with other citizens who share the same sentiment). When 'non-dogmatic' information becomes FREE

& TRANSPARENT it becomes a threat to those who attempt to control the narrative and/or the stable. When you are awake, you stand on the outside of the stable ('group-think' collective), and have 'free thought'. "Free thought" is a philosophical viewpoint which holds that positions regarding truth should be formed on the basis of logic, reason, and empiricism, rather than authority, tradition, revelation, or dogma. When you are awake, you are able to clearly see. The choice is yours, and yours alone. Trust and put faith in yourself. You are not alone and you are not in the minority. Difficult truths will soon see the light of day.

A person(s) value: 1. vote 2. monetary value (tax contribution) 3. Why is 'free thought' ridiculed, challenged, and threatened when a person is opposed to the 'mainstream-narrative'? [2] remains fixed (degree allowable by 'economic recession/expansion') [1] remains a variable [1] dependent on a 'controlled' system of information dissemination What happens when 90% of the media is controlled/owned by (6) corporations? What happens when those same corporations are operated and controlled by a political ideology? What happens when the news is no longer free from bias? What happens when the news is no longer reliable and independent? What happens when the news is no longer trustworthy? What happens when the news simply becomes an extension/arm of a political party? Fact becomes fiction? Fiction becomes fact? When does news become propaganda? Identity creation? How does the average person, who is under constant financial stress (by design), find time to research and discern fact v fiction? Majority of people more prone to believe someone in power sitting behind a big brand 'news' name? Do people [human psyche] tend to follow the 'majority/mainstream viewpoint' in fear of being isolated and/or shunned? 'Mainstream' is used for a reason [dominate trend in opinion]. [If majority of people believe 'x' then 'x' must be validated / true] Why do 'mainstream' media heads, within different orgs, always use the same keywords and/or catch phrases? Coordinated? By who? Outside entity providing instructions? Do they count on the fact that people [human psyche] are more prone to believe something if heard over-and-over again by different 'trusted' sources? Do 'echo chamber' tactics provide validation / credibility to the topic/point being discussed? Threat to intellectual freedom? Would control over[of] these institutions/organizations allow for the mass control of a populations viewpoint re: a desired topic? Read again – digest. Would control over[of] these institutions/organizations allow for the mass control of a populations viewpoint re: a desired topic? Logical thinking. Why, after the election of 2016, did [D]'s and media corps jumpstart a [coordinated & planned] divisive blitz intended to create falsehoods re: illegitimacy of election, character assassination of POTUS through sexism, racism, every other 'ism'? Pre/post 2016 election? Why were violent [masked] terror orgs such as Antifa immediately created/funded? Why were these orgs tasked w/ immediate intimidation/shut down of any pro-POTUS rally[s] and/or events? Why were marches immediately organized to counter and silence pro-POTUS rally[s] and/or events? Why were marches immediately organized which divided people into sex/gender, race, [ism]? When you control the levers of news dissemination, you control the narrative. Control of the narrative = power When you are blind, what do you see? They want you divided. Divided by religion. Divided by sex. Divided by political affiliation. Divided by class. When you are divided, and angry, and controlled, you target those 'different' from you, not those responsible [controllers]. Divided you are weak. Divided you pose no threat to their control. When 'non-dogmatic' information becomes FREE & TRANSPARENT it becomes a threat to those who attempt to control the narrative and/or stable [livestock kept – sheep]. When you are awake, you stand on the outside of the stable ('group-think' collective),

and have 'free thought'. "Free thought" is a philosophical viewpoint which holds that positions regarding truth should be formed on the basis of logic, reason, and empiricism, rather than authority, tradition, revelation, or dogma. Storm Update: Ivo says they're going to occupy the Vatican. They'll allow the minimal administrative type functions to keep the place running for now, but eventually it will be shut down.

Same thing for Buckingham Palace. The fall of the old cabal regime is upon us.

At the moment, there is worldwide removal of cabal members and their resources. We are also focused on New Zealand as a hotbed of cabal activity and are arresting there. Much work must be done in the ensuing weeks to remove this scourge from your planet. We are able to do this much, but we require your assistance.

People CHOOSE when they are going to die. We have 5 exit points to consider when it's best to leave this life and it has to do with whether we've achieved our soul's goals or not. Death is NOT random, it's designed. Life is deliberate. It's not random either.

Everyone here on earth right now is playing a part in this drama unfolding before us. Every single person whether they look like they're aware or not. Their souls are definitely aware. There are many people on this earth right now for a reason, and that reason is because of the transition to the Age of Aquarius. And everyone plays a part in it.

You are the master of your own mind, even your lower mind. It is your mind, you call the shots. You decide how your mind is to think, you determine it is not to be used as a weapon to control you or manipulate you in any way. We all can do this now. It is simply about being aware of the agenda of your controllers and not falling prey to it.

The best way to deal with a controller or a manipulator is to ignore them. When you do not energize their attempts, they cannot disempower you.

Storm Update
March 29, 2020

This is Ashtar Sheran with a message for all on planet Earth.

We are deep into this process of liberating your people. The Storm has begun, as you've noticed, and military is being engaged in order to help protect you from deep state retaliation. They still have their own allegiants who back them; remember there are military forces who are not human and are completely controlled by the deep state. These forces have no compunction and will harm anyone who enters their path. Although they may appear human, they are anything but that.

I am pointing out to you that this war has now landed upon your soil and in your cities and it could be an ugly war if not dealt with quickly and efficiently by your Alliance forces. Your light militaries are skilled at what they do, but outsmarting a machine with no moral character is something they may not have experience with.

These battles will be staged within your city limits. Being the last strongholds of the elite, your cities will be vulnerable to battles. This is why you've been asked to stay home - most do not live within the inner cities because your inner cities are the homes of the rich. The center of your cities have been structured to be safe havens for the elite but they are no more as your tanks approach their homes.

Remember there are underground tunnels that link all these homes together and it is easy for their forces to move under the surface where they won't be seen by curious eyes. At the moment, they are guarding elite homes in the inner cities. Remember, rumours of elite arrests can be exaggerated.

We are also ferreting out elites from their outposts in New Zealand. They have gone underground as they have bunkers there and there is battle ongoing as well. Most are on the run, attempting to escape capture. We have your world surrounded; there will be no egress available to them.

We appreciate the work of those who spread the messages provided to you by channelers. However we ask that you have consideration and name your sources so that they too, can benefit from the hard work that they do. Those who are high of Light are shadow banned by your social media and although they work tirelessly, never seem to gain the popularity of others who are less targeted. Having the skillset of channeler, with connection to the beings who are sworn enemies of your dark controllers, is a very targeted position for a Lightworker to hold. We guard our channelers carefully so that they are not murdered, harassed or hit with DEWs as has been the case with Sharon. Attempts have been made on her life and she has prevailed to be available to do this work for us.

Now for those who live upon your surface, who are afraid of the virus as this news continues to be put in your view, please turn off your television sets and limit your exposure to the news. Your news is propaganda, which tells you that which the elites want you to believe, not the truth. They are telling you because they want you to believe in it so that it is in fact the reality that will be created. Your news is lies and your media are liars. We are overtaking the media but you have a large system that, unless we block all transmissions through our QFS, is hard to regulate. We are also cognizant of the non-interference clause on our contract with the dark. **We of the Light have sworn not to interfere with their surface operations in order to help keep you alive. That was the trade-off we made. That's why it's important for all to wake up.** Until the elite is locked up and the dark ones are halted in their reign of terror, we of the Light are still limited in what we can do to help you lest retaliation be provoked.

On that note, this current leg of the collective liberation process has been about learning to take responsibility. Your governments bore much of the responsibility for your lives as they were controlling you. Now as this control is beginning to relinquish, you will gain more of your responsibilities back, and this must be taken in steps. Many were not able to secure food rations and many hoarded too many rations. Collectively you must work out your responsibility to self and to others and you'll have more opportunities to do so in the coming months. Many still respond with fear, some are more level-headed and some are not aware at all of the crisis that is looming on your planet, but I am warning you now: There will be hard times coming for you as you take your collective responsibility back from the deep state, as you face battles in your inner cities, and as **more viruses may be unleashed upon you**. Any retribution on the part of the deep state/the dark ones will be directed at you and you need to prepare for this as best you can. We of the Light will always be here to help to the utmost extent that we can.

I have said it before, and will repeat myself here: There is a war on. It was a war on your minds and this is lessening, but there may be retaliation and you need to prepare for this. Listen to anything that is asked of you by government agents and do not fear a governmental take-over. There is no take-over by anyone - this is a process of releasing you to your eventual freedom.

The entire world is watching.
Patriots from around the world are praying for AMERICA.
We are all bound by a feeling deep inside, a feeling that cannot be publicly expressed for fear of ridicule, a feeling that challenges the mainstream (narrative), against that which we are told to accept and dare not question, put simply, that people are being abused by those in power and time is running out.
Remember the battles of Lexington and Concord - "Give Me Liberty or Give Me Death!"
For far too long we have been silent and allowed our bands of strength, that we once formed to defend FREEDOM and LIBERTY, to deteriorate. We became divided.
We became weak.
We elected TRAITORS to govern us.
We allowed EVIL to prey on us.
Those who claimed to represent us gave us false hope, made false promises.
The evil and corruption only grew.

Corona Targets Asians

- 2019-nCov was reported to share the same receptor, Angiotensin-converting enzyme 2 (ACE2), with SARS-Cov.
- Here based on the public database and the state-of-the-art single-cell RNA-Seq technique, we analyzed the ACE2 RNA expression profile in the normal human lungs.
- The result indicates that the ACE2 virus receptor expression is concentrated in a small population of type II alveolar cells (AT2).

“Greater Depression”

- The Illuminati banking leaders, such as the **Rothschilds, the Vanderbilts, the Rockefellers, the Carnegies, and the Mellons**, as examples, will reveal themselves, and offer to “save” the floundering world economy.

Nationalizing the Fed

- In other words, **the federal government is nationalizing large swaths of the financial markets.**
 - The Fed is providing the money to do it.
 - BlackRock will be doing the trades.
 - **This scheme essentially merges the Fed and Treasury into one organization.**
- So, meet your new Fed chairman, Donald J. Trump.

The Three Days

- Around Sunday / Monday POTUS (The President Of The United States) will tweet to my American fellow citizens the Storm is upon us. [DW: We received no briefings on when.]
- We will go to full Global Martial Law.
- Chances are, you're on board AF1 (your Military plane) when you **send seven presidential MSGs to all phones and televisions around the world in the emergency broadcast system.**

The Three Days

- From all of your global armed forces through the US armed forces.
- In the US, they will **shut down all Internet media, phones and all TV programming** (emergency services will still have theirs) for the US military.
- They can [then] broadcast 10 days of 3x8 hours of video confessions, military courts, a lot of evidence for the scandals listed in the Storm article.
