• **Thanks for the Memories, by Brice Taylor, book. (aka. Susan Ford)**

MJ12 ordered the CIA to train "Sex slaves" as robots by using child torture and rape, age 2-8, in a Monarch program. These "Million Dollar Babies" as coined by Kissinger, the lead man on the project, had sex by the Kennedys, Bob Hope, the rat pack, Alan Greenspan, Reagan, Nixon, LBJ, Ford, etc. "Safe" girls as slaves and spies. No security leaks by hookers.

Training Farms, other women taught them sex techniques. More harsh programming. Electronics, lights, sounds. Psychic abilities enhanced. MK ULTRA.

Photographic and perfect memory. No one suspects a young girl.

Many abortions eaten by satanic cults. Most bigwig folks are pedos and Satanists by design. A control tactic, blackmail. Mutilations. Rape. Murder, torture.

(Mellons? Dad? ---I wonder? Disgusting possibility.)

The CIA said these were national security-trained pros, disease-free, and would be safer than outside civilian prostitutes.

Brice was 10 years old in 1961, and was having sex with all 3 Kennedys. Further torture/brutal rape/bestiality at NASA and military DUMBS for keeping her from waking up and remembering.

This “human technology” was effective, spies that didn’t now they were spies. Programmed robots with many “alters.” (Multiple Personality Disorder.) MPD is a lie, a cover. Manchurian candidates.

Project MONARCH. (Draco/Orion tech.)

MJ12 kept control of Govt officials, celebs, Presidents by this method.

Reagan tested common prisoners at NASA using the program. MIC wanted compliant soldiers, not rebel Nam vets. Lots of top brass.

Kissinger infiltrated the New Age movement with mind controlled channelers, etc. NWO agenda!

- **Cobra, The Portal: 12/3/18**

On the other hand, the Cabal is realizing more and more that they will lose, and they do not take defeat lightly. They have recently used Directed Energy Weapons in California to burn masses of people alive:

Their occult purpose behind this mass murder was to create a fire sacrifice to create a negative anomaly vortex to attract more of the cosmic primary anomaly to planet Earth to prolong their control of the planet.

The truth is that there is very little primary anomaly left outside of our planet, and dark forces find it increasingly more difficult to replenish their resources of anomalous plasma and negative entities entering planet Earth through tunnels of Set. There is a huge information war regarding intel about the plasma and anomaly status around our planet, and it is very difficult to get reliable information. It now appears that most of the remaining anomaly is coming to Earth from the Taurus dark cloud:

Such a thing as the complete opposite of the absolute force of Light and divine Love was unthinkable, it had never been seen in the history of creation. But here it was, developing under the leadership of the fallen angels who had turned against Source and the spiritual order. The dark expanded their activities and sphere of influence and as a reaction the spirits of Light decided to contain the dark so that it wouldn't spread further into the universe. As far as I understand the dark have directly affected 3 galaxies, the Milky Way, Andromeda and one other neighboring galaxy. Out of more than 100 billion galaxies that exist this is a tiny portion, but nevertheless the impact on creation is huge as everything is connected and fully conscious spirits have unlimited perception. There are no quick and easy fixes for the error in creation that we know as evil, its inception was unexpected and Source itself was hence unprepared for it. That means Source and the spiritual order had to come up with ways to tackle the problem of evil, and the primary anomaly that is at the root of it. This is how the light forces came about and thus the battle between the Light and the dark commenced. It is the mother of all battles; all other conflicts are dwarfed by it.

The weapons that the light forces use are totally different from the weapons the dark forces use. The dark uses fear, limitation and privilege, punishment and reward, lies and deceit, violence and destruction, repression and hunger, depression and isolation, turning the basic needs and motivations of people against them. The Light uses love, empowerment, inspiration, truth and revelations, harmony, freedom and nurturing, humor and expansion of consciousness, reinforcing the natural characteristics of people as divine spirits. The utmost that the dark can achieve is winning people over to the dark and destroying their contact with higher self, thus carrying on evil practices and maintaining its position. The Light is stronger than the dark as it is where we came from and what we are essentially made of. The reach of the Light is boundless and so is its purpose. The Light entails creativity, beauty, adventure, fulfillment, delight, euphoria and ecstasy but it is by no means limited to that.

They have boobytrapped Earth with strangelet and toplet bombs, which are based on the opposite principle of nuclear bombs. Instead of splitting radioactive atoms up in a chain reaction and causing a devastating explosion they will squeeze subatomic particles together when activated creating a black hole. This is the main reason why the dark

forces on planet Earth have not yet been defeated, they are using the residents of Earth as hostages.

The Resistance Movement.

One of the key groups of the light forces is the Resistance Movement. It actually originated on planet X, a planet with intelligent life located in the far reaches of the solar system beyond Pluto that used to be occupied by the dark forces and was liberated in 1999. Many freedom fighters from planet X then moved to Earth and joined freedom fighters from Earth in underground bases that were established since 1975. The main objective of the Resistance Movement (RM) is to overthrow the rule of the Cabal. The RM uses advanced technologies to monitor activities on the surface of the planet from within the underground bases. Before the reinforcements of the millions of freedom fighters from planet X joined, the freedom fighters from Earth were already in contact with Agartha, and they were heavily besieged by Cabal troops. Their situation was quite dire between 1996 and 1999, but the joining of millions of operatives from planet X turned the tide. Since then with the help of above ground intelligence officers and secret agents the RM has regained the terrain that was lost below the surface and destroyed many DUMBs (Deep Underground Military Bases) that were built by the Cabal with tax funded black operations budgets. The Cabal's intention was to equip the DUMBs with all necessities for prolonged underground stay, move underground with hand-picked assistants such as scientists, professors, doctors, nurses, military staff, architects, builders etc. and then unleash hell on Earth with a third world war that was planned to decimate the surface population with nuclear weapons, biological weapons and famines. After such destruction and pandemics, the world would need all the help it could get and would accept total and overt Cabal rule in return for the rebuilding and curing offered. That plan has been thwarted by the RM and all DUMBs have been either destroyed or taken over by them in cooperation with the so called white hats, officers and soldiers in the positive Military.

• **Maritime admiralty Law does** not deal with civil affairs; it’s supposed to deal only with banking or merchant transactions.

Words are chosen, words are important. They have hidden meanings.

In 1868 we were now under this law, no more sovereignty. “U.S. Corporation.”

Corporate law has presidents. Privately owned company.

So, when a ship arrives at a foreign dock, its merchandise is taken off the ship and unto the land. Of course there has to be a way to transfer custody of the merchandise, so a certificate is issued to account for each product. The certificate would state on its face the “birth date” of the products into the custody of the nation taking ownership.

Does any of this sound familiar yet? This brings to mind the birth certificate. So, why exactly is it required for all babies born to have a certificate of live birth? If certificates can establish ownership of something, then who exactly owns us?

It is said that when we are born, and have had a birth certificate application filed, our vessel (flesh and blood body) is considered lost at sea. For this reason, a trust is created in our name, and we are the beneficiary of that trust. As the beneficiary, we do not get to choose what happens with the trust or the estate within the trust. The executor or trustee decides for us what benefits we get from the trust. This trust is actually a private international trust, and there is no need for its existence to be divulged to the beneficiary. This trust is actually also never “expressed”; it is 100% constructive. Which means that when you’re in court, the judge can “construe” the trust however he/she chooses to be for their benefit. Usually, they make you the trustee, which makes you liable for whatever the trust (strawman) did wrong since the trustee is always a slave to the trust.

So, back to the birth certificate... It has been proven that the birth certificate is a bond. And as such, financial instruments are created from it and traded on the stock markets. The proceeds of these transactions go into the estate of the “private international trust” that the you are unaware even exists. So there is all this “money” being made off of all of us.

This all began in 1910 when a group of 6 bankers and economic policy-makers held a secret meeting at Jekyll Island (you can read all about this in *The Creature From Jekyll Island*). These 6 men represented the wealthiest and most elite people’s interests. The purpose of this meeting was to figure out a way to trick the American people into allowing a central bank into the country (there were several central banks before this that were taken down by the people). Then in 1913 the Federal Reserve Act was signed into effect by President Wilson. This was recounted in 1916 by B.C. Forbes, the founder of Forbes magazine. It was this act that put us into Maritime Admiralty law.

A few years later, in 1921, the Sheppard-Towner Maternity Act was passed by Congress. This Maternity Act forced all birth to be registered with the state under the excuse that it was for health benefits for the people. This leads us up to 1933 when the government took away all the gold and silver with HJR192 and switched the country over to using Federal Reserve Notes(these are the dollars we use today). 1933 was also the year in which the government went bankrupt, again. So what exactly happened?

This whole process switched the country from common law, to maritime admiralty law because we were no longer allowed to pay for anything with real money (gold or silver).

We now walk around exchanging negotiable instruments, which is done only in maritime admiralty law.

So what does this mean for us? It means we can never actually fully own anything (allodial title) because we have no money of substance to pay with. We are only able to pay with promissory notes, which are either in the form of a promissory note (such as when you sign a note to purchase a house) or in the form of Federal Reserve Notes. What this also means for us is that since we can never legally pay with money of substance, the government is actually obligated to discharge any debts we may incur (HJR192). The tricky part, is figuring out how to access this holy grail of administrative processes. You can't write out a promise to pay on a napkin and hand it to the bank, making the treasury the drawee, and think that you're going to walk away unscathed. There is definitely more to it than that.

• **Spanish flu, 1918**

More soldiers died during WWI from disease than from bullets.

May have been developed at **Bayer** in Germany

The pandemic was not flu. An estimated 95% (or higher) of the deaths were caused by bacterial pneumonia, not influenza/a virus.

The pandemic was not Spanish. The first cases of bacterial pneumonia in 1918 trace back to a military base in Fort Riley, Kansas.

From January 21 – June 4, 1918, an experimental bacterial meningitis vaccine cultured in horses by the Rockefeller Institute for Medical Research in New York was injected into soldiers at Fort Riley.

During the remainder of 1918 as those soldiers – often living and traveling under poor sanitary conditions – were sent to Europe to fight, they spread bacteria at every stop between Kansas and the frontline trenches in France.

One study describes soldiers “with active infections (who) were aerosolizing the bacteria that colonized their noses and throats, while others—often, in the same

“breathing spaces”—were profoundly susceptible to invasion of and rapid spread through their lungs by their own or others’ colonizing bacteria.” (1)

The “Spanish Flu” attacked healthy people in their prime. Bacterial pneumonia attacks people in their prime. Flu attacks the young, old and immunocompromised.

When WW1 ended on November 11, 1918, soldiers returned to their home countries and colonial outposts, spreading the killer bacterial pneumonia worldwide.

During WW1, the Rockefeller Institute also sent the antimeningococcic serum to England, France, Belgium, Italy and other countries, helping spread the epidemic worldwide.

During the pandemic of 1918-19, the so-called “Spanish Flu” killed 50-100 million people, including many soldiers.

If the origin of the pandemic involved a vaccine experiment on US soldiers, then the US may prefer calling it Spanish Flu instead of The Fort Riley Bacteria of 1918, or something similar. The Spanish Flu started at the location this experimental bacterial vaccine was given making it the prime suspect as the source of the bacterial infections which killed so many.

• **Fluoride. (See: Andrew Mellon).**

A story that isn’t often told, however, is the gift that water fluoridation is to special interests.

Fluoride, a rat poison, was found in big white piles in the Nazi death camps; it pacified the prisoners by being added to their water supply.

Since sodium fluoride is a waste product of the aluminum production process, water fluoridation meant that the aluminum industry could profit from their industrial waste. The government also called for initial studies on fluoride under the authority of Treasury Secretary Andrew Mellon—who was a founder of the ALCOA aluminum company.

Captain Mark Richards

A Navy Captain Mark Richards was an officer involved in the Dulce Battle as well as very active in the Secret Space Program and U.S. Space Command for many years prior to his being arrested and convicted of a murder he said he did not commit. This could be a classic case of the government framing someone who they feel may be turning against them from within the military.

There is much empirical data to support the possibility of a lowered weight or complete levitation of material objects as a result of directed psycho-physical human action (psychokinesis)-e. g. levitation of yogi practicing transcendental meditation according to the Maharishi method. There are known cases of mediums levitating during spiritistic sessions. However, it would be a mistake to think that such abilities are only found in people who are gifted by nature.

Med bay for time regression

Cyborg Medical ICC Labs on Mars Bases

The age regression pods have time dilation technology which can change the temporal condition of living beings, by dialing forward the Zero Time Reference axis in the biological systems of humans while the time dilation mechanism shifts time backwards to balance the process.

There are magnetic magnets inside some of the holographic pods that can trigger memory recall or erase traumatic memories/experiences from the brain.

Inside the Secret Space Programs: Bases and Living Arrangements

As well the smart toilet seats have a warming setting, automatic motion sensors to raise the lid, buttons to raise the seat, nightlights, self cleansing mechanisms, music to mask unpleasant sounds, and deodorizer spritzers to remove unwanted scents.

Smart Technology Toilets

The smart toilets have seats that raise automatically after use and there are self cleaning sensor systems that sanitize the toilet with a hot steam substance and a UV light to remove germs and bacteria.

These toilets have retractable spritzing wands and automatic driers in order to wash someone from behind and in front with water, then dry, without using toilet paper, this reduces waste.

The smart technology toilets have computerized systems which can adjust temperature, direction and pressure control of the spritzing wands or the driers.

Inside the Secret Space Programs: Bases and Living Arrangements

Sonic Sinks & Showers in Base Bathrooms

The sonic sinks and showers emit bluish/white energy beams with small amounts of water that clean the body and remove any bacteria, this technology does not use much water as that is at a premium on bases.

Sonic shower and sink technology uses pulses of ultrasonic vibrations in order to remove dirt and grime from someone's body by vibrating/evaporating residue. This technology is a combination of steam jets and high-frequency (ultrasonic), low-amplitude acoustic generators which are employed in order to bathe the user in a thin film of water condensate which would then be vibrated, thus initiating the cleansing function. A few drops of liquid soap are all that is required to dissolve whatever sweat and dirt which can accumulate since the last shower session.

Inside the Secret Space Programs: Bases and Living Arrangements

The shower stalls are not large, the enclosures are compact in order to fit into the smaller and medium sized bathrooms on bases and ships.

Shower Combinations on the Bases

There are different types of shower combinations on the bases. These can include a vapor/fog shower which emits steam in order to clean the body and remove aches and pains. There are sonic showers which emit the bluish/white energy beams to cleanse the body with only small amounts of water used. As well the more premium bathrooms do have water based showers, there are some time restrictions for how long an individual can take a water shower as water is at a premium on off world bases and ships.

Dear Lightworkers and Lightwarriors,

It is Columbus Day today, October 8th, here in the United States in honor of Christopher Columbus. As some of you know Christopher Columbus was one of the incarnations of Saint Germain, who in many lives have been focused on America and its role in the world. Saint Germain was also the author of the original American Constitution. He inspired the founding fathers to write it and when they hesitated to sign the document they had written he appeared to them entering the room by walking through the wall and gave a speech that motivated them to sign, at the risk of their lives.

President Trump was selected for the job by the military and the light, he gets support from the galactics, because of his background. He has done business with cabal members in the past and is familiar with them and know how they think and how they trick people. While Trump works for the light he is not a spiritual leader, but the necessary bulldog or general to get the job done. He will leave his office when his job is done, or when NESARA has been put in place, see below.

The cabal has no allegiance to either the democratic party or the republican party. The two Bush President were cabal controlled or in fact are high level cabal members. Bush Senior started CIA. President Carter was an exception, but not very strong as a President. Bill Clinton and Hilary Clinton were and are cabal members, and so was/is Barack Obama, in spite of the fact that many of us had hopes Obama was not. At this point in time the cabal is focusing on controlling the nation via the democratic party. They were very confident that Hillary would win the election and very upset when she did not. They had planned a total world take over and even a third world war created with her help. Wars allow the cabal to consolidate their powers.

“Antarctica is opening up a WORMHOLE. Yes, there is an ‘opening’ to other dimensions down there. Due to the extremely high magnetic shifts going on in and near Antarctica, it’s literally ‘tearing a new fabric’ in the dimensional field. THIS is the reason why ALL those government leaders went down there. THIS is why they shut off Antarctica to the public and so forth. The public only gets 5% of the ‘story.’ And now you have the other side.”

All your eyes and personalities orbit around it, a central eye, free will, life goal

The Enneagram of Personality, or simply the Enneagram (meaning "nine" meaning something "written" or "drawn"), is a model of the human psyche which is principally understood and taught as a typology of nine interconnected personality types.

Time distortion,

According to legend, the Tuatha de Danann were a mystical race of tall God-like beings who invaded and ruled Ireland over four thousand years ago. Modern academics and scholars deny they ever existed, yet ancient historians have left behind texts full of the most incredible stories about them. So, medieval fantasy, myth or fact? You decide. Red hair, blue eyes, blonde.

Interestingly, archaeology has unearthed evidence all around the world of small colonies of red-haired people from the same time period as the Tuatha De Danann's arrival in Ireland. Negative agendas? Came in flying ships.

Edgar Cayce on Atlantis Technology

He claimed that the Atlanteans were well-versed in technology that harnessed the power of the quantum world. This included the use of crystals and sound waves for healing. Elevators and connecting tunnels operated with compressed air and steam. And they used quartz crystal science to mine gold, copper and silver from the earth. Atlanteans were adept at the use of silicon chips at levels unrivaled in the modern world. The Crystal Skull, for example, was cut with such infinite precision that “no known modern tool could have replicated the job.” High dimension hard drive.

They were familiar with the amplification power of crystals in laser technology and memory chips. Also, they made extensive use of mass mental telepathy, psycho-kinesis and astral projection into fourth dimensional consciousness. Caught in the wheels of their own tech. Fucked.

THE ORIGINAL NAME WE USED FOR THE ALLIANCE WAS "FACTION 3"

"In Faction 3 you have guys playing along, attending the meetings, putting up with things they don't agree with (or even publishing it in their own words to protect themselves) who have been waiting for years — even generations — to spring the trap that we are now watching destroy the negative factions in real time."

2009 EISCAT spiral in Norway, just before Obama got the Nobel: Possible he had 6 ETs waiting in the wings for a disclosure speech.

Deep State / Cabal operatives then let Obama know this was a visible example of portal technology in action. The black circle in the middle was apparently a traversible wormhole.

The rotation of that area of the sky with these high-powered microwave beams was apparently enough to rip a hole in the fabric of space and time itself.

Obama was threatened that if he dared to say a single word about ETs or UFOs at the Nobel awards ceremony, they would open up a portal in front of Air Force One while he was onboard.

He and all of his crew would be killed instantly. No one would know where he went or what happened. His disclosure would then be discredited and covered up.

The resulting chaos disrupted the president's plans to create disclosure. It never happened.

You can't even imagine how stunning this was for me to see, particularly after the briefings I had received about the Norway Spiral, and the hard data that backed it up.

It is entirely possible that Obama had extraterrestrial humans waiting in the wings, ready to be introduced, at that same Nobel Prize ceremony in Oslo, Norway.

Remember — the original briefing we got from Pete Peterson included the idea that six different groups would be introduced to us in the initial speech.

That makes the inaugural episode of "The Event" another shocking example of Obama being threatened in a blatant, public fashion that no one would understand.

Here is what the perpetrators might have intended to say to him:

“Look at what we can do. The public is so brainwashed that we can show them exactly what is going on, but no one will ever believe it. President? So what. You will just disappear.”

Another very significant article series in the ‘canon’ of our older works on mass arrests is entitled China’s October Surprise, as mentioned in the above excerpt.

The first article in this series has over 350,000 unique views at the time of this writing.

In it, we detail multiple efforts China was making to force the Deep State to reveal the truth about UFOs, free energy, advanced technology and the ET presence.

The Chinese delivered packages to leaders around the world in 2010, with plans for free energy — and threats that if this was not released, severe attacks would follow.

The resulting coercive efforts included multiple, bizarre, highly-visible EMP attacks against military and civilian targets that did not kill anyone, but sent a very strong message.

This included the complete powering down of 1/9th of the entire US nuclear missile arsenal.

The Chinese also fired a missile off the coast of Los Angeles, California on November 9th, as another dramatic warning. \

The second one shook NY and the entire east coast with a 5.8, and an epicenter right near Washington, DC, on August 23rd, 2011 at 1:51 PM local time. EARTHQUAKE.

This was the destruction of a highly luxurious and favored underground base for the DC elites, known to insiders as “Crystal City.” Near CVILLE.

20 more cabal bases destroyed worldwide.

BASES CONTINUED TO BE DESTROYED, AND HAARP COUNTER-ATTACKS KILLED MANY BIRDS AND FISH

We covered an earlier example of underground-base attacks in Disclosure War at Critical Mass: Birds, Fish and Political Deaths, back on January 15th, 2011.

In this case, satellite beams were used. This technology may not have led to the full-scale destruction of the bases, as we saw in the above examples.

The Cabal used HAARP to deflect beam-weapon attacks against underground facilities, but created massive, suspicious deaths of birds and fish in the process.

The birds’ bodies had bone-breaking blunt-force trauma that was greater than would have occurred from them hitting the ground.

Strange earthquakes indicated other underground bases being fully destroyed after the Cabal broke the treaty, beginning on August 23rd, 2011.

We reported about this on September 17th, 2011, and again on October 13th, 2011.

Again, we later heard that at least 26 major underground facilities had been destroyed between August 2011 and January 2012.

“THE PLAN” BEGAN WITH A BETRAYAL IN THE KOREAN WAR

You are about to see an excerpt from the Drake interview that details part of what we may expect to see when the mass arrests happen.

If you read the full story, it begins with Drake seeing a five-inch-thick briefing document in 1979 called “The Plan,” which outlined a blueprint for mass arrests.

This document had been secretly developed ever since a huge betrayal against the US military occurred in the Korean War.

US generals realized that battle plans they were required to report to the United Nations were being intercepted by the enemy in North Korea.

This led to massive soldier deaths by ambush. North Korea knew way too much about where the soldiers would be, and when they would arrive. It was devastating.

Through seeding misinformation in their battle plans, the US military discovered that the UN was leaking this data to North Korea. It was unimaginable treason.

The legendary G. Edward Griffin covered this story of treachery in his classic book, *The Fearful Master*, from 1964.

John F. Kennedy was deeply aware of the massive briefing document they called “The Plan.” He had tried to carry it out, only to pay the ultimate price.

The binder was already five inches thick by the time Kennedy saw it in 1961 or thereabouts.

Pete Peterson had many specific details about the same binder, and its contents, when I started speaking to him in 2009.

JWW: FEMA camps used for mass arrests now. Karma is a bitch!

CG: Most of the operations are non-violent, or what we wouldn't typically think of as military.

They will range from propaganda, electronic warfare and covert teams that arrest people.

Some Secret Service/Body Guard positions were infiltrated, and some of these top figures are basically in custody and don't even know it.

Many of the targets of these operations have their jets on 24-hour standby notice. Pilots are sleeping at air hangars, ready to leave at a moment's notice.

Many of the targets of these operations have been denied safe haven in some of the bunkers where they were promised sanctuary, which is typical Cabal.

The planes will be intercepted by the US Air Force if they try to leave US Airspace.

The hangars are under observation and they now have a way to shut down all underground subshuttles simultaneously.

7 CIA MAINFRAME CIA SUPER-COMPUTERS DOWN – SPY SATELLITES OFFLINE

Thursday, August 30th, 2018 — 6:24 PM (18:24) MAJOR MEETINGS ARE GOING ON

First off, the Dragon Family is deeply and directly involved in hyper-classified “Secret Space Program” technology we have reported about for some time.

They used this sort of technology to create all the mysterious EMP-type equipment failures in the “China’s October Surprise” events of 2010.

For this same reason, they have a compound in America that is located near certain underground defense-contractor facilities that are rich with advanced technology.

My friend reported that hundreds of top Dragon Family personnel have flown out to this compound recently, and are signing off on a new financial system.

All the details have apparently been worked out, and everything is prepared to move forward. This would likely be a post-mass-arrests development.

This will apparently include a gold-backed US currency. We have also heard that multi-billion-dollar funds will be released to massively clean up and transform the planet.

Corona sats are armed, possible scalar DEW

Seven mainframe computers inside the Central Intelligence Agency (CIA) are now offline for an unknown reason.

The loss of computing has also caused a significant number of US Spy Satellites to go offline.

Sats Offline include: Corona 1,4, 8, & 16 are dark.

(NOTE: CORONA SATS ARE THE DIGITAL “KEYHOLE” REPLACEMENTS FOR THE ORIGINAL DECOMMISSIONED PROGRAM OF THE SAME NAME.)

Additional Sat. Offline: Big bird 9 — “KH-9 (BYEMAN codename HEXAGON), commonly known as Big Bird[1] or Keyhole-9, was a series of photographic reconnaissance satellites launched by the United States between 1971 and 1986.”

UPDATE 10:12 PM EDT —

CinC NORAD has just declared “DEFCON 4”

UPDATE 10:38 PM EDT FRIDAY 31 AUG. —

The CIA has been trying to restart the super-computer mainframes. They got three to restart – and they immediately crashed again! Four others are simply not restarting at all.

SIGINT and SATCOM capabilities REMAIN SEVERELY COMPROMISED.

This is now just over 24 full hours that much of our Intelligence Community communications capabilities globally, REMAIN DEAD.

We are told that this has apparently crippled the ability for the NSA and other groups to conduct mass surveillance on anyone.

This could be a more detailed way of explaining the Q Anon phrases like “BLIND EYES IN THE SKY,” “Main frequency bands TERMINATED, #Goodbye,” “Retaliation”, “OVER THE TARGET” and “NSA NO MORE.”

Without the ability to conduct mass surveillance, the “Operation Specialists, Pre-Event” can make their final moves and get in position without being detected.

Thus, as this purported insider source said, “Something massive is taking place. Things like this don’t just happen.

“Good side” of Rothschild family says Trump will stage financial reset | September 3rd, 2018

The deadlock has ended in the undeclared U.S. civil war that lasted all summer.

The good guys have already begun a series of stunning moves against the cabal, including shooting down their secret satellites, multiple sources confirm....

The satellite shoot-down was first reported by the mysterious blogger “Q” and has been independently confirmed by three separate sources.

“On August 30, CIA satellites and supercomputers were taken down and likely seized by [U.S. President Donald] Trump’s new space force.

“GCHQ [British Intelligence] was removed from the NSA database, to also render cabal elements in the UK, Australia, Canada, New Zealand, Japan, France, Germany, and Israel deaf and blind,” Pentagon sources explained.

What Pete Peterson said is that the satellites were not “shot down” or destroyed. A curious, advanced, classified technology was used to make them invisible and unusable.

They still exist, but are not accessible in any conventional sense. They may well have been captured and removed from orbit, as Fulford’s insiders have suggested.

• **A CIA source in Asia** who was involved in setting up the secret satellite network that was taken down last week issued the following warning to colleagues:

(My CIA/DIA sources confirm this) --JWW

“We are in potential danger. I hope your vehicles have fuel and you have emergency food and water on hand. There’s no telling who did this or why.

“Now that some of our satellites are down, God only knows what may be coming at us.”...

The communications takedown is a prelude to both a military and financial offensive against the cabal, Pentagon and CIA sources agree.

For reasons of operational security, the Pentagon sources cannot say much about the military action other than “a U.S. military offensive is under way to terminate the defenseless and disoriented cabal.”...

“It appears the October Surprise comes early with the Guns of August, as Trump proclaimed on August 31 that September is ‘emergencies month’ and he may drop ‘truth bombs’ about 9/11 and 3/11,”Pentagon sources explain...

There is also a lot of action taking place on the cyber front, with multiple sources saying Google, Facebook, Twitter, YouTube, etc. are in the crosshairs, multiple sources agree....

The assault on the California-based tech giants is probably also going to lead to actual military occupation of many high-tech companies in that state, other Pentagon sources note....

[Lastly, CIA] sources say an off-world alliance will soon reveal itself to the world’s public.

MAJOR MEETINGS ARE GOING ON

First off, the Dragon Family is deeply and directly involved in hyper-classified “Secret Space Program” technology we have reported about for some time.

They used this sort of technology to create all the mysterious EMP-type equipment failures in the “China’s October Surprise” events of 2010.

For this same reason, they have a compound in America that is located near certain underground defense-contractor facilities that are rich with advanced technology.

My friend reported that hundreds of top Dragon Family personnel have flown out to this compound recently, and are signing off on a new financial system.

All the details have apparently been worked out, and everything is prepared to move forward. This would likely be a post-mass-arrests development.

This will apparently include a gold-backed US currency. We have also heard that multi-billion-dollar funds will be released to massively clean up and transform the planet.

First of all, we got Peterson confirmation on the Snow White, Corona and Big Bird satellites being completely disabled with a strange new advanced technology.

He said he could not explain what the Corona satellites are or what they do on the phone, but that they are “defensive devices.”

He confirmed that “a bunch” of Cabal underground bases have been wiped out in the recent past... a major increase.

He said that a new gold-backed currency will be released to the public after the indictments are unsealed and mass arrests take place.

Massive prosperity funds will be released to help stimulate and rejuvenate the world's economy, ecology and infrastructure.

Social media giants will be publicly outed as being direct assets of the Deep State's own intelligence agencies.

The declaration of September as "Emergency Preparedness Month" is very serious, and should not be taken lightly.

Quite controversially, he said almost everyone in Congress is included in the sealed indictments for various reasons.

Other details I got from Pete are too specific and sensitive, but I want to give you some of a sense of what was there.

He doesn't know if an ET-related disclosure will happen right away, but he also feels it is "very unlikely" that we will have to wait very long.

There have been detailed plans on the books for some time to introduce us to multiple ET races, and those people are already here waiting for this.

At some point I asked him to explain what he meant earlier when he said, "Americans are all over the galaxy."

He reported direct knowledge of 25 or 30 outposts we have throughout the galaxy. We have an average of 300 advanced craft per outpost.

These craft have anti-gravity and can fly at Mach 17 or beyond. Coast-to-coast flights in these "planes," as he calls them, would take less than an hour.

Each outpost has somewhere between 400 to 1200 soldiers stationed there. Some outposts are larger, and some are smaller.

These outposts are used for trade relationships with important ET groups that have either information or technology we need.

Some of these outposts are on planets, and others are located in "neat abandoned stuff" that we found throughout the galaxy and re-occupied.

Some of the best stuff we re-occupied has only recently been determined to be about 20,000 years old.

DISCLOSURE PLANS

For me, the most interesting material I got from him was regarding the plans for UFO-related disclosure, whenever they do emerge.

First of all, he said fifty of our own advanced craft have been flown in. The plan is to unveil these craft to show everyone what 'we' have, post-Disclosure.

From the way he described them, these will be very impressive sightings that will electrify the world.

Based on other things he said in the past, we can expect that they will look similar to craft we have seen in a variety of big-budget movies.

Efforts have been in place to teach certain insectoid-type ETs to speak English in underground facilities such as those run by Lockheed.

Apparently, these beings will use normal speech instead of telepathy whenever they are introduced to us.

At one point he said, “Language school is tied up teaching a bunch of crickets to speak.”

People from a total of ten or twelve different planets are here now, apparently waiting to be introduced to us at some future point.

Lastly, he said that many classic UFOs retrieved from various crashes will be made available to the public to see firsthand.

A movie will be made about all of this, and various World’s Fair-type exhibits will be set up in different major cities, where we can view the craft directly.
